ACKNOWLEDGEMENT

It is with profound respect and immense gratitude that I acknowledge my indebtedness to Dr. S. SUBRAMANIAN, M.D. D. Bact (Lond.), D.Sc. (Copen), F.A.M.S., F.I.M.S.A., Professor Emeritus, Department of Microbiology, Dr. ALM Post Graduate Institute of Basic Medical Sciences, Taramani, Madras for his meticulous guidance, constructive criticism, kind treatment, constant encouragement, invaluable advice and generous help at every step of this work. But for his able and inspiring guidance this study would not have been possible.

I am extremely grateful to Dr. S.P. Thyagarajan, M.Sc., Ph.D., M.D., (Copen), F.I.M.S.A., Professor and Head of Microbiology, Dr. ALM Post Graduate Institute of Basic Medical Sciences, Taramani, Madras, my co-guide for his utmost help, constructive criticism, constant encouragement and invaluable advice in conducting this piece of study.

I am grateful to Dr. Thangam Radhakrishnan, M.Sc., Ph.D., Lecturer in Microbiology, Dr. ALM Post Graduate Institute of Basic Medical Sciences, Taramani, Madras for her invaluable suggestions, encouragement and for the interest she has shown in this work.
I am also grateful to Dr. S. Kameswaran, M.S., Ph.D., F.R.C.S., F.A.M.S., D.L.O., Honorary Director, Dr. ALM Post Graduate Institute of Basic Medical Sciences for giving me an opportunity to work in this Institute.

I am extremely grateful to the Director, Indian Council of Medical Research, Ansari Nagar, New Delhi for the grant through a fellowship for a period of three years to carry out a project in the field of Mycoplasmology.

My grateful thanks are due to Dr. R.Parasuraman, B.Sc., M.D., D.V., Assistant Professor, Institute of Venereology, Madras Medical College, Madras for all the help rendered in collecting the clinical material and for his valuable suggestions. I am thankful to Dr. Vijayalakshmi, the former Professor and Head, Institute of Venereology, Madras Medical College, Madras for permitting me to collect the clinical material. My thanks to Dr. Kantaraj, M.D., D.V., Assistant Professor, Institute of Venereology, Madras Medical College, Madras for his help and suggestions.

I am immensely grateful to Dr. Suchakar Chandran, M.B.B.S Senior house surgeon, Stanley Medical College for his utmost help in the collection of the clinical specimens.

I wish to place on record my indebtedness to Dr. E.A. Freundt, Professor and Head, FAO/WHO Collaborating Centre for Animal Mycoplasmas, Institute of Medical Microbiology, Bartholin Buildings,
University of Aarhus, Aarhus, Denmark for kindly supplying the reference strains of Mycoplasmas and U. urealyticum, antisera against M. hominis and U. urealyticum, Literature on mycoplasmas and ureaplasmas and for his invaluable advise.

My sincere thanks to Dr. Lina Deodhar, M.D., Professor and Head, Department of Microbiology, LTM Medical College, Bombay for helping me in the techniques of Mycoplasmology and for her suggestions.

I am thankful to Dr. M.C.Shepard, Ph.D., STD Laboratory, occupational and preventive medicine, Naval Regional Centre, Camp Lejeune, NC, USA and to Dr. David Taylor Robinson, M.D., FRC Path, Medical Research Council, Clinical Research Centre, Division of Sexually Transmitted Diseases, Harrow, Middlesex, U.K. for providing the bibliography and their suggestions.

I am pleased to thank Dr. V.Jayapol, M.D., Lecturer in Microbiology, Dr. ALM Post Graduate Institute of Basic Medical Sciences, Taramani, Madras for his suggestions and help rendered during final compilation.

I am ever thankful to Mrs. Kownhar Zohra, Technician for her technical assistance.

I am immensely thankful to Dr. Baba Krishnan, Reader in Pathology, Dr. ALM Post Graduate Institute of Basic Medical Sciences, Taramani, Madras for his expert opinion in histopathology and microphotography.
My thanks are due to Dr. Satyamoorthy, Reader in Statistics, Annamalai University and to Mr. Venkatesan, Department of Statistics, Tuberculosis Research Centre, Madras for their statistical analysis of the data. I am also thankful to Mr. Thanuvalingam, Department of English, Annamalai University for his suggestions.

My sincere thanks to Mr. R. Valliappan for his assistance in final compilation. The secretarial help given by Mr. K. Veeramani and Mr. R. Rajendran, Happy Electronic Job Typing Centre, Annamalainagar is thankfully acknowledged.

I am thankful to all the staff of the Department of Microbiology, Dr. ALM Post Graduate Institute of Basic Medical Sciences, Taramani, Madras who have helped me in conducting this study.

Finally, I profoundly thank my wife Mrs. Anita Prabhakar for her forebearance, encouragement and withstanding the loneliness during the final part of the study enabling me to complete the work on time.

(K. PRABHAKAR)
