7 The Mean and SD of Knowledge and Educational Need Scores of Health workers among different areas of Environmental Education ... 120

8 The Mean and SD of Knowledge and Educational Need Scores of Organised workers among different areas of Educational Environment ... 121

9 The Mean and SD of Knowledge and Educational Need scores of Unorganised workers among different areas of Environmental Education ... 122

10 The Mean and SD of Knowledge and Educational Need Scores of Village Development Officers among different areas of Environmental Education ... 123

11 The Mean and SD of Knowledge and Educational Need Scores of Village Sarpanches among different areas of Environmental Education ... 124

12 Mean, SD of total knowledge and Educational Need Scores of different categories of rural adults in all the areas of Environmental education and the calculated F-values ... 129

12-A Mean Knowledge Scores of different categories of rural adults in all the areas of Environmental Education and the Results of the Duncan's Test. ... 130
12-B Mean, Educational Need Scores of different categories of rural adults in all the areas of Environmental Education and the results of Duncan's Test. ... 132

13 Mean, SD of knowledge and educational need scores of different categories of rural adults in air pollution area of environmental education and the calculated F-values ... 135

13-A Results of Duncan's test showing significant difference among different categories of rural adults in air pollution knowledge ... 136

13-B Duncan's test results for Educational needs in air pollution among different categories of rural adults ... 137

14 Mean, SD of knowledge and Educational need scores in water pollution among different categories of Rural adults and the calculated F-values ... 140

14-A Showing Results of Duncan's test regarding the knowledge in water pollution of different categories of rural adults ... 141

14-B Showing the results of Duncan's test regarding the educational needs in water pollution among different categories of rural adults ... 142

15 Mean and SD of knowledge and Educational Needs in Noise pollution among different categories of rural adults and the calculated F-values ... 144
15-A Showing Duncan's test results on knowledge in Noise pollution among different categories of rural adults

15-B Showing Duncan's test results on Educational needs in Noise pollution among different categories of rural adults

16 Mean, SD of Knowledge and Educational Needs in Energy among different categories of rural adults and the calculated F-values

16-A Showing Duncan's test results for knowledge in Energy among different categories of rural adults

16-B Results of Duncan's test on Educational Needs of different categories of rural adults in Energy

17 Mean and SD of knowledge and Educational needs in Forests among different categories of rural adults and the calculated F-values

17-A Results of Duncan's test regarding knowledge in Forests among different categories of Rural Adults

17-B Duncan's test results for educational needs in Forests among different categories of rural adults
18 Mean and SD of knowledge and Educational need scores in Mines and Dams among different categories of rural adults and calculated F-values

18-A Showing Duncan's test results on knowledge of Mines and Dams of different categories of rural adults

18-B Duncan's test results of educational needs in Mines and Dams of different categories of rural adults

19 Mean, SD and calculated F-values of knowledge and educational need scores in land pollution among different categories of rural adults

19-A Results of Duncan's test regarding knowledge of land pollution among different categories of rural adults

19-B Results of Duncan's test regarding educational needs of land pollution among different categories of rural adults

20 Mean, SD and calculated F-values of knowledge and Educational Need scores of population explosion among different categories of rural adults

20-A Duncan's test results of knowledge in population explosion among different categories of rural adults
20-B Duncan's test results of educational needs in population explosion among different categories of the rural adults ..... 171

21 Mean, SD and calculated F-values for environmental sanitation, knowledge and educational need scores among different categories of rural adults ..... 174

21-A Results of Duncan's test pertaining to the knowledge in environmental sanitation among different categories of rural adults ..... 175

21-B Duncan's test results regarding educational needs in environmental sanitation among different categories of rural adults ..... 176

22 Mean, SD and knowledge and educational needs about food issues among different categories of rural adults and the calculated F-values ..... 179

22-A Duncan's test results of knowledge in food issues of different groups of rural adults ..... 180

22-B Duncan's test results of educational needs in food issues of different groups of rural adults ..... 181

23 Mean, SD and calculated F-values for knowledge and educational needs of environmental legislation among different categories of rural adults ..... 184
23-A Duncan's test results of knowledge in environmental legislation among different categories of rural adults ... 185

23-B Duncan's test results of educational needs in Environmental legislation among different groups of the rural adults ... 186

24 Priority items of Adult education learners under each area of environmental education based on their knowledge and educational need - Mean values ... 193

25 Priority items of adult education volunteers under each area of environmental education based on their knowledge and educational need - Mean values ... 212

26 Priority items of non-formal education instructors under each area of environmental education based on their knowledge and educational need - Mean values ... 231

27 Priority items of elementary school teachers under each area of environmental education based on their knowledge and educational need - Mean values ... 250

28 Priority items of Anganwadi workers under each area of environmental education based on their knowledge and educational need - Mean values ... 269
29 Priority items of Health workers under each area of environmental education based on their knowledge and educational need - Mean values \[ ... \ 288 \]

30 Priority items of organised workers under each area of environmental education based on their knowledge and education need - Mean values \[ ... \ 306 \]

31 Priority items of unorganised workers under each area of environmental education based on their knowledge and educational need - mean values \[ ... \ 324 \]

32 Priority items of Village Development Officers under each area of Environmental Education based on their knowledge and educational need - Mean values \[ ... \ 342 \]

33 Priority items of village sarpanches under each area of environmental education based on their knowledge and education need - Mean values \[ ... \ 360 \]
