ACKNOWLEDGEMENT

At the first outset with a heart filled with memories, I thank my beloved guide Dr. Shantipal S Ohol, Associate Professor, Department of Mechanical Engineering, College of Engineering Pune. It is due to his first motivation and affection only I could begin my journey towards earning a Ph.D. Without his warm guidance during satisfactory completion of research work, it would not have been possible for me to surge ahead in pursuits. I further thank a loving and staunch expert support of my former Master of Science Guide, Prof. Robert C. Voigt, Industrial Engineering Department, Pennsylvania State University, State College, USA. His persistent motivation and follow up kept me on the toes. I always greatly respect his valuable technical inputs. I would like to thank my progress monitoring committee members Prof. Mrs. M.G. Karnik, Mechanical Engineering Department, COEP and Prof. M. D. Jaybhaye, Production engineering and Industrial Management Department, COEP for their valuable comments and suggestions. My sincere thanks also go to Prof. B. B. Ahuja, Director, College of Engineering, Pune and Prof. C. M. Sewatkar, Professor and Head, Mechanical Engineering Department for providing me the facilities and support to carry out my work at Robotics Laboratory at COEP. My Special thanks are due to Prof. A. D. Sahasrabudhe, former Director of COEP. I am also obliged to thank Dr. Rajesh Ghongade, Prof. V. K. Haribhakta and Ms. Saeede Nazari Goldar for their valuable contribution to complete this work. I thank Mr. R. D. Anjikar, Managing Director, Siddhalaxmi Engineering Pvt. Ltd. from the very bottom of my heart who always gave me firm support with my project to be performed at Siddhalaxmi Engineering Pvt. Ltd, Solapur Plant without any restrictions to facilitate all trials, material, man power and any other related help as required and was a very supportive yet friendly during my pursuit. His pleasant comments and suggestions added value to my work as well as personality. I am grateful for the trust and confidence shown on me by him. I am very much indebted to him.

I thank from the bottom of my heart my father Pramod, my mother Nayana, my sister Mrs. Chanda Kanetkar and my brother Umesh. Their love and perseverance has been a prime source of motivation for me and continue to be the same. Special thanks to my friends Amod Joshi, Tanmay Panchwagh, Kanchan Pant, Yogesh Kulkarni, Fariba Ghasemi Najm, Devyani Abhyankar, Niranjan Godbole and Sujeeet Kalbhor for their continuous moral support and help throughout my research work.

Also, I must thank Mr. Sameer Sali, foundry Engineer and Mr. Pradeep Waghmode, Maintenance Engineer at Siddhalaxmi Engineering Pvt. Ltd., Solapur plant for all the help and supportive ideas without which this work would have been not fulfilled to this extent. Here, I take the opportunity to thank my friends and colleagues Mr. Sanjeev Kulkarni, Mr. D. M. Bhapkar and Anaje and Mr. Sagar Birajdar for their constant
support which kept up my confidence level. Of course this acknowledgement must include all the staff and my shop-floor colleagues at Shiddhalaxmi Engg. Pvt Ltd., Solapur Plant. Their tremendous support and motivation always kept me motivated during the trials on the shop-floor. I also thank Mr. Deepak Dhakne for his valuable help for editing and formatting the thesis.
