ACKNOWLEDGEMENT

I express my profound and deep gratitude to Prof. Geetha R Balakrishna, my research guide, Director, Centre for Nano and Material Sciences, Jain University for her constructive criticism and dedicated guidance to complete the assigned task and bring the thesis to the current form.

I thank Dr. T. Ramakrishnappa, Associate Professor, my research co-guide, Dayanand Sagar University for his encouraging comments and valuable inputs throughout my research.

I acknowledge with gratitude Jain University and its founder-chairman Mr. Chenraj Roychand for providing the opportunity to pursue Ph.D degree and for the fellowship.

I am very much indebted to Dr. M. V. Reddy, Energy Lab, Department of Physics, National University of Singapore, Singapore for having channeled my interests in lithium-ion batteries and helped me during my stay in his lab. I take this opportunity to thank Prof. B. V. R. Chowdari, Department of Physics, National University of Singapore, Singapore for having accommodated me in his lab. I thank Dr. P. Nithya Dharseni, post-doctoral fellow, Energy Lab, Department of Physics, National University of Singapore, Singapore for her assistance and support.

I express my heart-felt gratitude to Dr. Liang Chen, Associate Professor, Advanced Batteries Lab, Ningbo Institute of Materials Technology and Engineering, Ningbo, P.R. China for having steered me to aim high and learn the various techniques of aqueous batteries. I thank Prof. Wang Wei, Advanced Batteries Lab, Ningbo Institute of Materials Technology and Engineering, Ningbo, P.R. China for all the well-timed help provided during my stay. But for him, my visit in Ningbo would have been very challenging. I also thank Prof. Z. Liu, Director, Advanced Batteries Lab, Ningbo Institute of Materials Technology and Engineering, Ningbo, P.R. China, for making me feel at home in his lab and also for having treated me as one of his very own students. I thank all my workmates in Advanced Batteries Lab for being hospitable and accommodative.
I thank Prof. Gopukumar, Scientist, Central Electrochemical Research Institute, Karaikudi, for accommodating me in his lab to learn the basics of lithium ion batteries.

I express my sincere thanks to Dr. Nagaraju, Assistant Professor, Siddaganga Institute of Technology, Tumkur for his timely help and suggestions.

I thank Prof. Nagendrappa and Dr. Suresh, Department of Chemistry, Jain University for the research course work studies.

I thank Prof. Sandeep Shastri, Pro-Vice Chancellor, Jain University, Prof. Mythili Rao, Dean, Languages and Research Co-ordinator, Jain University and Mr. Krishna, Jain University for helping me in times of need.

I take this occasion to thank all the Professors, Centre for Nano and Material Sciences for their kind words.

I take this moment to thank all my colleagues, Dr. Samrat Deveramani, Dr. K. Suresh Kumar, Dr. T. N Ahipa, Dr. K. Manjunath, Dr. S. Muralikrishna, Dr.T. N Ravishankar, Ms. K. R. Chethana, Ms. P. Hemavathi, for their stimulating intellectual discussions.

I wish to thank Dr. P. D. Laveena, Dr. M. S. Jyothi, Dr. H. R. Chandan, Dr. P. Shwetharani for their help.

I thank the staff of Department of Nanoscience and Nanotechnology, Tamil Nadu Agricultural University, Coimbatore, Department of Physics, University of Mysore, Institute of Excellence, University of Mysore, Azymes Microlab, Bangalore for their help rendered in characterizing my samples.

I wish to thank the office staff, Centre for Nano and Material Sciences, Ms. Muktamba Urs, Ms. Vidya and Mr. Manjunath for their assistance.

My special gratitude is due to my husband, Mr. S. Ramaswamy, my son, Master. Kannan R Vaibhav, my mother, Ms. Vasanta Kannan, my sister Dr. Anusha Kannan. Without their support, sacrifice and encouragement I would not have been able to devote time to research. I profusely thank God for showering His blessings on me throughout my life.
