ACKNOWLEDGEMENT

At the end of my doctorate I take this opportunity to thank all the people who made this thesis possible and brought this day in my life. This journey in which I have trespassed infinite ways has turned out to be a treasured reminiscence for me.

Foremost I pay all my heartfelt gratitude and thanks to my Ph. D. mentor Dr. V. V. Dhapte. Without his immense support and encouragement this would have not been possible. Under his guidance I learned to circumvent many difficulties. I warmly thank him for his valuable advice, constructive criticism and his extensive discussions around my work.

I am also profoundly indebted to Prof. Shivajirao Kadam, then Vice-Chancellor, Bharati Vidyapeeth Deemed University, Prof. Manikrao Salunkhe Vice-Chancellor, Bharati Vidyapeeth Deemed University and Dr. K. D. Jadhav, Principal, Yashwantrao Mohite College, Pune for providing me the opportunity and facilities for conducting the research.

I would like to thank Dr. A. B. Pawar, Dr V.B. Jadhav, Dr. S.P. Dagade, Dr. M. P. Wadekar, Dr. V. B. Adsul, Faculty of Science, Yashwantrao Mohite College, Bharati Vidyapeeth Deemed University, Pune for the support and inspiration. I am very much thankful to Dr. B.A Kulkarni, Dr. N. R. Deshpande, and all my colleagues of Department of Chemistry for their resourceful help in the analysis and support throughout the research work.

I owe my deepest gratitude to my aai, bhau, sisters Nita & Nilam, Satish Jadhav and Hanmant Nikam for their unfailing love and untiring faith shown in me for whatever decisions I took in life.

And ultimately, I thank the Creator for bestowing me with all the strength and nerve it took during my journey towards the destination. This day would have never arisen in my life without his blessings.

Navin Subarao Suryawanshi
