Acknowledgements

First and foremost, I would like to express my sincere gratitude to my supervisor Dr. Pallab Kanti Haldar for his continuous support of my Ph. D. study and research. During this time, he has shown me patience and enthusiasm, as well as being a great source of knowledge. Under his guidance, I was able to complete my research and thesis with greater efficiency. I could not have imagined having a better advisor and mentor for my Ph. D. study.

I would like to thank my co-supervisor Dr. Saikat Dewanjee for his support, as it was Dr. Mazumder who first taught me how to isolate phytomolecules, especially in the field of natural products.

I offer my gratitude and appreciation to Dr. Keya Chaudhuri, Molecular & Human Genetics Division, Indian Institute of Chemical Biology, along with her entire group, especially Atul Katarkar for helping me with cell cultures, western blotting, annexin V FITC assay and for his help in cell blebbing analysis.

I am very much thankful to Head of the Department Prof (Dr). Biswajit Mukherjee, Ex. HOD’s Prof (Dr). Tapan Kumar Maity and Ex. Prof (Dr.) Tanmay Bera and Prof (Dr.) L. K. Ghosh for allowing me to perform the throughout the project work.
