ACKNOWLEDGEMENT

I wholeheartedly express my high esteem and deep sense of gratitude to my supervisor Dr. S. PALANI. M.Sc., M.Phil., Ph.D., Professor, Department of Biotechnology, Arunai Engineering College, Tiruvannamalai, Tamilnadu, India, for his excellent and able guidance, suggesting the field of investigation, healthy advice, moral support and encouragement throughout the period of this research work.

I express my heartfelt thanks to the Management of K.P. College of Pharmacy, Thiruvannamalai, for permitting me to do the research work and providing me with the valuable resources and research ambience.

With immense gratitude I thank Professor Dr. M. Radhakrishnan. M.Pharm., Ph.D., Principal and Head, Department of Pharmaceutics K.P. College of Pharmacy, Thiruvannamalai, for providing the laboratory facilities to carry out this research work and for the prompt help rendered whenever approached.

Words are due to thank the support, encouragement and care of my friends Dr. N. Gnanasekar, M. Pharm., Ph.D., Professor and Head, Department of pharmacology, Professor R. Varadharajan. M. Pharm, and my Colleagues of K.P. College of Pharmacy, Thiruvannamalai, throughout my research tenure.

I am happy to extend my thanks to Dr. V. Chelladurai, Research Officer, Botany C.C.R.A.S. Govt. of India, (Retired) for the identification and authentification of the plant material and Dr. S. Kumaravel, Scientist, Indian Institute of Crop Processing Technology, Thanjavur, for the support to study the Phytochemical present in the plant extract through GC-MS/MS analysis.

On a personal note, I record profound sense of gratitude to my parents and family members who stood beside me in every stage of my life and without them; I would never be here at this level.

I am happy to extend my thanks to the suppliers of chemicals, reagents and animals for the research work. My sincere thanks are extended to other individuals and organizations whose contributions directly or indirectly during this investigations could never be ignored.
