List of Figures

CHAPTER-1 : INTRODUCTION 1-20

1.1 Introduction

1.1.1 Statement of the Problem

1.1.2 Recent status of vegetation cover in Northeast India

1.1.3 Present distribution of Forest in India

1.2 The main objectives of the study

1.3 Research Questions

1.4 Significance of the study

1.5 Organization of the work

CHAPTER-2: STUDY AREA 21-44

2.1 The Study area: North Eastern Region

2.2 Location

2.3 Natural vegetation and Forest resources

2.4 Soil

2.5 Physiography

2.6 Drainage

2.7 Climate
2.8 Land use
2.9 Trend of fuel wood consumption

CHAPTER 3: LITERATURE REVIEW

3.1 Use of time series satellite image data
3.2 Methodology applied in different studies
3.3 Related works in India and North East India

CHAPTER 4: DATABASE AND METHODOLOGY

4.1 Database
   4.1.1 Satellite imageries
   4.1.2 Topographic maps
   4.1.3 Data collected from various secondary sources
   4.1.4 Data collected from the field
   4.1.5 Software used

4.2 Methodology
   4.2.1 Data preparation and processing
   4.2.2 Vegetation change detection
   4.2.3 Methods used to detect vegetation greenness
   4.2.4 Field data collection and processing

CHAPTER- 5 SPATIAL AND TEMPORAL PATTERNS OF NDVI VARIABILITY IN NORTH EAST INDIA (1998-2013)

5.1 Spatial and temporal patterns of NDVI
5.1.1 Data processing

5.1.2 Methods

5.2 Results and discussions

5.2.1 Seasonal variability of NDVI

5.2.2 Monthly and annual patterns of NDVI

5.2.3 Temporal and Spatial change in NDVI by vegetation type

5.3 Spatial distribution of vegetation greenness vis-a-vis altitude

CHAPTER – 6  NDVI AND ITS RELATION WITH CLIMATIC VARIABLES

6.1 NDVI and climate data processing

6.1.1 Trend Analysis

6.1.2 Karl Pearson’s product moment method

6.2 Results and discussions

6.2.1 Correlation between rainfall and NDVI

6.2.2 Correlation between temperature and NDVI

6.2.3 General trends of NDVI, rainfall and temperature over vegetation type

6.2.4 Seasonal correlations between rainfall and NDVI

CHAPTER- 7  FOREST AND INSTITUTIONAL STRUCTURES

7.1 Introduction

7.1.1 NDVI and its linked with institutional structure

7.1.2 Methods used to detect vegetation greenness

7.1.2 Results and Discussions

7.2 Description of the study area (Amchang Wildlife Sanctuary)
7.2.1 Geographical Background

7.2.2 Forest Cover Change

7.2.2.1 Methods used to detect landuse and landcover change

7.2.3 Fuelwood Consumption and socio-economic structure of fringe villages

7.2.4 Drivers of Forest loss

7.2.5 Implications for conservation and management

CHAPTER – 8  SUMMARY AND CONCLUSION 164-171

8.1 Summary

8.2 Conclusion

8.3 Suggestions
