## CONTENTS

**Abbreviations**  
i-v

**List of cases**  
vi-vii

### INTRODUCTION

1. The Choice of Topic  
2. Need for the Study  
3. The Objective of The Study  
4. Hypothesis  
5. Scope of the Study  
6. Impact of the Study  
7. Research Methodology  
8. Chapter-wise Introduction  

### Chapter: I

**GENETIC INFORMATION:**  
**PRIVACY AND CONFIDENTIALITY ISSUES**

1. Human Dignity, Bioethics and Human Rights  
2. The narrowness of the notion of Bioethics  
3. The variety of values, norms and principles  
4. The troubled relationship between fundamental values and plurality  
5. Individual and Collective Human Rights  
6. Human Dignity  
7. The Human Body  
8. Economic Rights and Benefits  
9. Uniqueness of Genetic Information  
10. Genetic privacy  
11. American Genetic Privacy Act  
12. Indian Position  
13. Genetic Counseling and Informed Consent  
14. Genetic Counseling  
15. Free and informed Consent  
16. Doctor - Patient Relationship in Genetic Counseling  
17. Regulations of Genetic counseling-Using Torts Law  
18. Genetic Counseling and Doctor's Duty of Confidentiality  

1-10

11-47
7. Exception
   7.1 Consent of Parties
   7.2 Legal duty to Disclose
   7.3 Professional colleagues and Associates
   7.4 Public Interest
   7.5 For Teaching and Research Purposes
   7.6 Disclosure when the interest of patient is involved
8. Genetic Discrimination: Employment and Insurance
   Issues
   8.1 Argument of Insurers and Employers
   8.1.1 Insurers argument
   8.1.2 Employer's argument
   8.1.3 Occupational hazards
   8.1.4 Economic incentive of employers
   8.1.5 Interest of the applicants
   8.2 Legal protection against discrimination

Chapter: II

**HUMAN GENOME AND PATENT LAW**

1. Patents
2. Types of Patents
3. Diversity of patent Law
4. Patentability, Morality, and Access
   4.1 Patenting of Stem Cells
   4.1.1 Concerns about the morality of the patents
   4.1.2 Concerns about access and control
   4.1.3 Attempts to force benefit sharing
   4.2 Patenting of the Human Genome
   4.3 Patenting of gene Fragments
   4.4 Patenting of Proteins
5. Position of International Organization on Patenting the Genome
   5.1 The Human Genome Organization (HUGO)
   5.2 UNESCO
   5.3 Other Organization
6. The TRIPS Agreement
7. TRIPS Agreement and The Doha Declaration
   7.1 Compulsory licensing
   7.2 Parallel importing and other TRIPS issues
   7.3 Manufacturing ability
Chapter: III

IN-VITRO FERTILIZATION AND RELATED TECHNOLOGIES:

LEGAL AND HUMAN RIGHTS ISSUES

1. Meaning and Scope 88
2. Procedural Techniques of In-vitro fertilization (IVF) 90
2.1 Ovarian Stimulation 90
2.2 Egg retrieval 90
2.3 Fertilization 91
2.4 Embryo Transfer 91
3. Supplemental Techniques 91
3.1 Intracytoplasmic Sperm Injection 92
3.2 Zygote Intrafallopian Transfer 92
3.3 Preimplantation Genetic Diagnosis 92
3.4 Autologous Endometrial Co-culture 93
3.5 Testicular Sperm Extraction 93
3.6 Gamete Donation 93
3.7 Surrogacy 93
4. Artificial Insemination 94
4.1 Issues relating to artificial insemination 95
4.1.1 Adultery and cruelty 95
4.1.2 Legitimacy of the Child 96
4.1.3 Anonymity of the Gamete Donor 97
4.1.4 The Child right to know and parent's right not to tell the genetic origin 98
5. In-vitro Fertilization (IVF) and Ethical & Legal Issues 99
5.1 Eligibility to In-vitro Fertilization (IVF) 100
5.1.1 Laws in Developed Countries 102
5.1.1.1 United States 102
5.1.1.2 Canada 103
5.1.1.3 Australia 103
5.1.1.4 United Kingdom 106
5.1.1.5 Position in India 106
5.2 Issues related to Gamete Donation 107
5.2.1 Duties of Donor 109
5.2.2 Rights of Donor 110
5.3 Parentage and related issues 111
6. Future of Assisted Reproduction Technology (ART) and legal and ethical challenges 113

6.1 Position in Developed Countries 116
6.1.1 United States 116
6.1.2 Australia 117
6.1.3 Canada 118
6.1.4 United Kingdom (UK) 118
6.2 Response of International Organizations 118

Chapter: IV

**GESTATIONAL SURROGACY: LEGAL AND HUMAN RIGHTS ISSUES**

1. Meaning of surrogacy 123
2. Types of surrogacy 123
2.1 Total Surrogacy 123
2.2 Artificial Surrogacy 124
2.3 Commercial Surrogacy 124
2.4 Non-Commercial Surrogacy 124
3. Issues relating to Surrogacy 124
4. Surrogacy: Comparative Positions under Jewish Law, American Law & English Law 126
4.1 Jewish Law 126
4.2 American Law 126
4.3 English Law 127
4.4 Indian position 128
5. Compensation or Remuneration to Surrogate 129
5.1 Position in Developed Countries 130
5.1.1 United States 130
5.1.2 Canada 131
5.1.3 United Kingdom 131
5.1.4 Australia 132
5.1.5 Position in India 132
6. Surrogacy Contract 133
6.1 Legality of Surrogacy Contract 134
7. Issue of Child Rights 136
8. Issue of Personal Autonomy 137
9. Conflict of Interest and Surrogacy Contract 138
10. Issue of Parentage 140
11. Law in Developed Countries 142
11.1 United States 142
11.2 Canada 143
11.3 United Kingdom 143
11.4 Australia 144
11.5 Position in India 145
| 11.5.1 | Hindu Adoption and Maintenance Act, 1956 | 146 |
| 11.5.2 | Guardians and Wards Act, 1890 | 146 |
| 12. | Issue of Eligibility of Surrogacy | 147 |
| 12. | Position in Developed Countries | 147 |
| 12.1 | United States | 147 |
| 12.2 | Canada | 149 |
| 12.3 | England | 149 |
| 12.4 | Australia | 149 |
| 12.5 | Position in India | 149 |

Chapter: V

**STEM CELL RESEARCH AND HUMAN CLONING:**

**ETHICAL, LEGAL AND HUMAN RIGHTS ISSUES**

1. What is Stem Cell Research? 154
2. Stem Cell Research in religious context 157
3. Stem Cell Research in legal context 158
4. Use of Stem Cell Research for the Benefit of Mankind 160
5. Benefits arising from Stem Cell Research 163
5.1 Stem Cells for Therapy 164
5.2 Use of Stem Cell in Transplantation 164
5.3 Cancer Therapy 165
5.4 Disease of the Nervous System 165
5.5 Disease of the Bone & Cartilage 165
5.6 Blood Disorder 166
5.7 Toxicity and Drug Testing 166
5.8 Transplantable Organs 166
6. Immortality 167
7. Human Evolution and Species Protection 167
8. Commercial Interests in Stem Cell Research 168
9. Background regarding the Stem Cell Research Controversy 170
10. The ethical issues 172
10.1 Stem Cell and the Status of the Embryo 173
10.1.1 What is a human embryo? 174
10.1.2 Ethical issues involved with use of Embryo 174
10.1.2.1 The Embryo, the ‘Pre-Embryo’ and the Concept of Personhood 174
10.1.2.2 The Embryo’s ‘Right to be born’ 175
10.1.2.3 Respect for Embryos 176
10.1.2.4 Spiritual and Religious Contexts 177
10.1.3 Competing Ethical Principles 180
10.1.4 Present Legal Position 183
10.2 Women as the sources of ova for Stem Cell Production 185
10.3 The use of ova from Other Species 186
10.4 Slippery Slopes towards Reproductive Cloning 187
The Presentation of Stem Cell Research promising too much and too early
Evaluation of scientific uncertainty and its implications for public policy
Resolving ethical issues
Stem Cell Research: International legal response
Position in United Kingdom
The Human Fertilization and Embryology Act, 1990 and Regulations
Legal challenges to cell nuclear replacement
Ban on reproductive cloning
Management of stem cell resources: the UK Stem Cell Bank
United States
European Union Countries
International guidelines
Human Cloning
Human Cloning: Scientific Background
Reproductive Cloning
Natural form of Cloning
Artificial Reproductive Cloning Techniques
Embryo Splitting
Nuclear Replacement
Therapeutic Cloning
Reproductive Human Cloning
The Feasibility and Physical Harms of Human Cloning
Human Reproductive Cloning: Unethical Position
Human Reproductive Cloning: When Ethical
The Individuality of Cloned Child
Autonomy of Cloned child
Instrumentality
Kinship Lineage and Family Relations
Cloning one’s child
Cloning an unrelated third party
Rearing a clone of self
Cloning and rearing one’s parent
Reproductive Human Cloning & Procreative Liberty
Eugenics
International Human Rights Law and Human Cloning
UNESCO Universal Declaration on the Human Genome and Human Rights
Cloning and Children’s Rights and Interest
Reproductive Human Cloning: Legal Position
United Kingdom
United States
Chapter: VI

CONCLUSION AND SUBMISSIONS

1. Suggestions
