I express my deep sense of gratitude to my Supervisor who inspired me to take up this research work for Ph.D. degree in Commerce under the University of Calcutta. He has steered me through all the stages and helped in effectively completing the work, right from the generation of the idea to the final writing of the thesis. I also remain grateful to the bank officials of United Bank of India, United Commercial bank and Allahabad Bank who contributed in identifying the research variables and designing the questionnaire for the purpose of the study. I am also indebted to my family members for their endurance and cooperation during the entire period of the study.
