Acknowledgment

A kindness done in the hour of need may itself be small,
But in worth it exceeds the whole world.

Verse 102

It is my pleasure to thank all the people who helped me throughout my Ph.D., and this is the right time to thank them individually.

First I thank my parents Mr. Jagadeesan Neelamegam and Mrs. Saratha Jagadeesan for their inductive effect on me during this Ph.D., to finish this dissertation in a good manner.

My Ph.D., is not a neat reaction and I may not have finished this Ph.D., without his help and guidance with lot of freedom. So I give my humble and honest salute to my Ph.D., supervisor Prof. Dr. Arunachalam Sankaralingam.

I thank Prof. Dr. Cornelia G. Palivan, Department of Chemistry, University of Basel, whose timely incorporation into their vesicle family and released me with high impact of efficiency cum talent. My special thanks to Prof. Wolfgang Meier for his support after my tenure in University of Basel.

I thank Prof. Renganathan Rajalingam, my doctoral committee member, always be another Ph.D., supervisor, who gave useful suggestions during the doctoral committee meetings.
I thank Prof. Palaniandavar Mallayan, former Head of the department for his support throughout from my master degree to doctoral degree. I thank Prof. Venuvanalingam Ponnambalam, former HOD of this School who taught me ethics of behaviour in science as well as in real life. I thank Dr. Srinivasan Kannupal, for his timely discussion, whenever I need help.

I thank all the HODs and members of the teaching faculty from School of Chemistry for their support. Also I thank all my teachers from my school days, who shaped me to attain this stature.

I thank Prof. Dr. H. Reuter, Universität Osnabrück (CCSD help), Prof. Dr. Avinash S. Kumbhar, Dr. S. S. Bhat, Dr. R. Kannan, University of Pune for their timely help in the beginning of my Ph.D work.

I thank several atoms who helped me from department of Chemistry, University of Basel.

The first atom which is with me and always had good friendly bonding with me and good discussion throughout my stay at University of Basel. So, I thank Dr. Vimalkumar Balasubramanian. The second atom is that where I had donor acceptor relationship with him during the data collection and crystallographic discussion. But I was always being an acceptor and trouble him a lot but he always be a good donor to me. So, I thank Dr. Markus Neuburger. The third atom is Dr. Daniel Häussinger for his valuable NMR discussion. Fourthly, there were two atoms that helped me during mass discussion whenever I had a doubt; they were ready to help me. For this help I thank Dr. Heinz Nadig, Sylvie Mittelheisser from the University of Basel.
Further, there are cluster of atoms I want to thank. Patric (Sir Patric), Mihai, Samuel (Bad Karma), Christoph (Kolaveri Christoph), Fabian (Fab), Dr. Renee, Dr. Katarzyna, Adrian (No. 1), Dr. Adrian (No. 2), Severin (Bad man), Sven, Bernadetta, Dr. Ozana, Prof. Dr. Camelia, Dr. Gesine, Dr. Thomas, Dr. Elisa, Dr. Agnieszka, Dr. Karolina, Dr. Mariana, Dr. Daniela, Dr. Xiaoyan, Martins (Bio and Chem), Pascal, Roland, Tomaz, Justyna, Juan, Kasper, Svetlana, Smahan, Dalin, Gabriele, Dr. Nico, Alina, Dominik, Alex, Andreea, Jonas, Martina, Dr. Anja, Evgenia and Srba. They provided a friendly lab environment throughout my stay in Basel.

Even though I was away from home for two years, but never had the feeling that I was away from my home. This is because of Bamini akka, Lorena, Jonathan, Amala amma, Richard, Nandhini, Shama, Rishi, Navil, Dr. Rajesh, Dr. Senthil Kumar, Mercy, Dr. Vimakumar, Ana, Dr. Kathiresan, Dr. Vijay Solomon and my fellow German language kutties for their love and affection and they considered me as one of their family members. I thank Bhusi for her constant encouragement throughout my stay at Basel. Further I thank all the student home buddies for their wonderful international environment throughout my stay in the student home.

I had good lab environment in India. So I thank all my Seniors and Juniors for their support. Further I thank Anand (BDUPA), Dr. Manivannan (Munivannan), Dr. Subashini, Dr. Arunagiri, Paramaguru (Guru Vamma), Dr. Vignesh, Vignesh, Mahalakshmi (Periyapapa), Anandha Kiruba, Kiruthika, Karthika, Saravanan, Logu, JV, Raji, Dr. Anbazhagan (Chinna Bhagavathi), Dr. Asha, Jagadeeswari (RR V 2.0), Suganya, Vanitha, Nagaraj (Snake),
Dr. Ramki, Dr. Jacob, Dr. Devi, Nirmalram (Raguvaran), Jeeva, Sivaguru, Dr. Ganesh kumar, Venkatesh, Murali (Mr.D), Sinduja, NFMC-Dr. Gopi, Dr. Uma, Dr. Govind, Dr. bhuvana (Eco bhuvana), Dr. Philo, Mohan, Raji (phy), Amritha, IG, Arathi (Chechi), Nithyasakthi (SMS), Isai, all the M.Sc., student (2006 – 2011 batch), research scholars and teaching staff from School of Chemistry as well as from other department for their delocalized support and encouragement. Also I thank non teaching staff of BDU for their official supports.

Without money it is tough during this Ph.D., luckily I have been awarded from UGC Research Fellowship in Sciences to Meritorious Students in Science (UGC-RFSMS) from 2008 to 2011 and Swiss Federal Commission Scholarship for Foreign Students for the academic year 2011 – 2012 from September 2011 to June 2013. So I thank the funding agencies for providing fund for my research.

The last but not the least I would like to thank God, the Almighty, for having made everything possible by giving me the potency, grace and audacity to carry out my research work productively.

I thank all those great hearts who rendered help to achieve this task.

J. Sivaraman
