

ACKNOWLEDGEMENT

The work presented in this thesis would not have been possible without the efforts of many of colleagues, collaborators and friends. I would like to express my heartfelt thanks to all individuals who directly or indirectly contributed to the successful outcome of this Ph.D thesis. In particular, I want to gratefully acknowledge the generous contributions of the following individuals

I take this opportunity to express my deepest sense of gratitude to my research guide **Dr. K. Sathiyamurthy**, Assistant Professor, Department of Bio-Medical Science, School of Basic Medical Sciences, Bharathidasan University, Tiruchirappalli, for their enlightened idea, wise, careful guidance, and encouragement throughout the study period and make sure my project was going in the right direction. He is not only a teacher with deep vision but also most importantly a kind person. His trust and support inspired me in the most important moments of making right decisions and I am glad to work under his supervision.

I would like to make a special mention of those who collaborated with me during parts of my Ph.D: **Dr. T. Ramamurthy**, Deputy Director, (Senior Grade) and Head, Department of Molecular Microbiology, National Institute of Cholera and Enteric Diseases (NICED), Kolkata, for his high-level inspiration and support in every aspect. I doubt that I could have completed this work without his invaluable support and he also made science exciting, **Mr. Anirban Sarkar** for his help, support and insight as a fellow student in NICED, Kolkata.

I also thank members of my dissertation committee members **Dr. S. Selvakumar**, Assistant Professor, Department of Environmental Studies, School of Energy, Environment and Natural Resources, Madurai Kamaraj University, Madurai and **Dr. S. Jayalakshmi**, Associate Professor, Centre for Advance Study in Marine Biology, Annamalai University, Parangipettai, who formed part of my thesis committee, for their guidance and encouragement.

I wish to thank **Dr. Narkunaraja Shanmugam**, Professor and Head, and **Dr. Sashidar Mulugu**, Associate Professor and Chair, Department of Bio-Medical Science, School of Basic Medical Sciences, Bharathidasan University, Tiruchirappalli for their support during the tenure of my research. I would like to extend my thanks to

Dr. K. Premkumar, Dr. G. Mathan, Dr. S. D. Saraswathy and Dr. S. Shanmugaapriya, Assistant professors, Department of Bio-Medical Science, Bharathidasan University for their support and encouragement during the course of research.

I gratefully acknowledge the authorities of **Bharathidasan University** for providing facilities for my research.

I gladly express my sincere thanks to my friends **Mr. P. Dhinesh** and **Mr. A.M. Velmurugan** for their help during the experimental part as well as the preparation of this thesis.

Huge thanks goes to my Molecular Microbial Pathogenesis Lab team members **Dr. A. Baskaran, Mr. S. Dinesh Kumar, Mr. R. Senthil Raja, Miss. E. Jenifer Emelda, Mr. S. Mahesh, Miss. H. Bavithra** and project students **Miss. V. Sabitha, Miss. R. RajaRamya** with whom I started this journey, as a group you made comfortable, critiques and thoroughly enjoyable. Equally big thanks also go to my friends **Mr.P. Navaneetha Krishnan, Mr. S. Boopathi, Mr. P. Gopinath, Mr. S. Vinoth Kumar, Mr. Hariharan, Mr. A. Arjunan, Mr. Sisubalan**.

I would like to dedicate this thesis to my parents Appa **P. Indrajith** and Amma **I. Valarmathy** and my family members **V. Rajkumar, R. Praveena, R. Kavya, R. Megha, P. Rengarajan**, grand parents **P. Perumal and P. Vijayalakshmi** who always believed I could do this and gave me a push in the right direction when I needed it.

I. SUREKA
