Acknowledgements

No words can express my sincere thanks and gratitude to my supervisor Prof. Bhabatosh Chanda, ECSU, Indian Statistical Institute, Kolkata. Besides giving me an opportunity to work in his Lab, he has given me maximum support with his patience and knowledge in pursuing my ideas throughout my thesis. I also wish to express my sincere gratitude for my joint supervisor Prof. Kallol Bhattacharya, Department of Applied Optics and Photonics, University of Calcutta for his invaluable advises and continuous encouragement. I attribute this degree to the effort of both of my supervisors without whom this thesis would not have been completed.

I am grateful to the team (C. Y. Suen at al.) who have developed CENPARMI database (Copyright © 2003-2015 Concordia University) and have given permission to use it for the experiments. I am also thankful to Prof. J Ruiz-Pinales, University of Guanajuato and Prof. Francesco Camastra, Department of Science and Technology, University of Naples Parthenope, Napoli, Italy to provide their partition of IAM database and source code.

I thank all Professors of Applied Optics and Photonics, University of Kolkata specially Prof. L. N. Hazra, Prof. A. K. Chakraborty, Prof. A. K. Datta, Prof. A. Basuray, Prof. S. K. Sarkar, Prof. Ajay Ghosh, Dr. Rajib Chakraborty and Dr. Mina ray for their invaluable suggestions. I am also grateful to all Professors of ECSU, ISI, Kolkata. I specially thank Prof. Dipti Prasad Mukherjee, Prof. Nikhil Ranjan Pal, Prof. Aditya bagchi, Prof. Srimanta Pal and Dr. Pinakpani Pal.
for their continuous encouragement.

I would like to thank Dr. Soumitra Samanta and Dr. Bibhas Chandra Dhara for their valuable suggestions and discussion throughout my thesis. I would also like to thanks my colleagues Mr. Mrinmoy Ghorai, Dr. Saiyed Umer, Mr. Sanchayan Santra, Mr. Ranjan Mondal and others at ECSU, ISI Kolkata for their help and kindness. I appreciate our lab assistant Mr. Dilip Kumar Gayen for helping on any software and hardware related issues.

I acknowledge the Department of Science & Technology (DST) for the financial support to continue my research work. I am grateful to the ECSU unit of Indian Statistical Institute, Kolkata, to provide the infra-structural support needed to complete my thesis.

Last, but not the least, and as always, I am indebted to my extraordinary family, for their unconditional love and support. I could not have gone so far without them. I thank my beloved mother to whom I owe so much. I also thank my husband & best friend who helped me to stay focused during crisis. Thanks everyone, my dida, my father-in-law, uncle and aunty, brother Jit, brother-in-law Bulbul, sister Jina, sister-in-law Rituparna, son Ghuplu and niece Titli for their love, support and encouragement. A special gratitude to my Amu-jethu who has awakened my scientific mind in so many ways. And finally, I would like to express my deepest gratitude to two special persons. To my father, who has taught me how to face problems and make choices, for telling me that I should do what I love. To my mother-in-law, who have given me immense support and freedom to carry out my research work.

University of Calcutta
