ACKNOWLEDGEMENTS

Undertaking this Ph.D. research work has been a life-changing and challenging experience for me and it would not have been possible to do without the support and guidance that I received from many people.

Firstly, I would like to express my sincere gratitude to my research advisor Dr. K.N. Amruthesh, Asst. Professor & Principal Investigator (UGC-MRP) & DBT for his meticulous guidance, patience, motivation, consistent encouragement, and considerable support during the experimental period and during the preparation of this thesis are extremely treasured.

I also would like to express my sincere gratitude to Prof. G.R. Shivamurthy, UGC-Major Research Project Co-Investigator for his valuable guidance during my research work.

Besides my advisor, I would like to thank the Chairperson of our Department, Prof. Shobha Jagannath for providing the necessary facilities to carry out my research work.

I wish to extend my high regards to my teachers Prof. K.A. Raveesha, Prof. G.R. Janardhana, Prof. S. Leelavathi, Dr. M.S. Sharada., Dr. Rajkumar H. Gampalli & Dr. M.S. Nalini for their extended support and encouragement during my stay in the Department. I also remember the help rendered by Prof. Shankar P. Hosmani, Prof. M.S. Sudarshana, Dr. K.M. Jayaramaiah & late Prof. T.C. Shivashankara Murthy.

I consider it a rare opportunity to articulate my deep sense of gratefulness and thanks to Prof. H. Shekar Shetty, Former Principal Investigator and Officer-In-Charge, ICAR-AICRP-PM, Mysuru Centre, Department of Studies in Biotechnology, University of Mysore for his consummate knowledge and endearing demeanor which always inspired and helped me in countless ways throughout my studies.

This feat was possible, because of the unconditional support provided by Dr. S. Chandra Nayaka, Principal Investigator, ICAR- AICRP-PM, Mysuru Centre. It would be incomplete, if I had not heeded his remarks of efforts in shaping out this thesis with meaningful conclusions.

My sincere thanks to Prof. S.R. Niranjana, Officer-In-Charge (ICAR-AICRP-PM, Mysore Centre) and Vice-Chancellor, Gulbarga University, Kalaburagi and Prof. H.S. Prakash, Chainman, DOS in Biotechnology, Dr. N. Geetha, Asst. Professor, DOS in
Biotechnology, and Dr. A.C. Uday Shankar, Asst. Professor (ICAR-AICRP-PM, Mysuru Centre) for their valuable suggestions, insightful encouragement and also for providing the necessary facilities to carry out my research work at the Department.

My immense pleasure in giving truthful thanks to Dr. Ramesh Kumar Saini, Assistant Professor, Department of Bioresource and Food Science, Konkuk University, Seoul, Korea for being very kind, patient and always willing to lend his service whenever I approached him at various phases of this research work.

I thank my fellow labmates from DOS in Botany for their valuable suggestion, precious support and help at various stages of my research work.

A good support is very important for the meaningful journey. In this regard, my heartfelt thanks to my fellow labmates from DOS in Biotechnology for their inspiring encouragement, stimulating discussions, scholarly inputs, and sustained interest throughout my studies.

I owe a lot to my family, especially my parents Mr. Nagaraj and Mrs. Mangala who encouraged and helped me at every stage of my personal and academic life, and longed to see this attainment come true. My greatest appreciation goes to my lovely daughter Chi. Laasya N. Raj for her unconditional love, warmth and support means for me to attain this stage in my life.

I extend my earnest thanks for all those who directly and indirectly helped me in various ways during my research tenure.

I would like to acknowledge the University Grants Commission (UGC), New Delhi for awarding Research Fellowship under UGC- Major Research Project given to my Guide Dr. K.N. Amrutesh as Principal Investigator & also Prof. G.R. Shivamurthy as Co-Investigator, ICAR-AICRP-PM, IOE & University of Mysore for providing financial, academic and technical support to carry out this research work.

-Lavanya, S.N.
