ACKNOWLEDGEMENT

Acquiring a Ph.D. degree is a ‘dream come true’ for me. It is my privilege to acknowledge the contributions of people who have facilitated my achieving this goal.

First and foremost, I express my heartfelt gratitude to my Research Guide Dr. N. Nagesha, Associate Professor & Chairman, Department of Industrial & Production Engineering, University B D T College of Engineering, Davangere. He is my ‘guide’ in the truest sense of the word in all my research activities. He has shown me a lot of affection, provided great motivation and support and stood behind me during my entire research tenure. My research is immensely benefited by his disciplined academic practices. I am indeed proud to be a research student under his guide ship. I am thoroughly impressed with his way of working and tried my level best to emulate the determination, dedication, discipline, and hard work which I saw in him, while achieving my academic goal. I am thankful to him for having meticulously gone through the entire draft thesis and offering invaluable suggestions for enhancing its quality. I whole heartedly thank him guiding me throughout my research work.

I am profusely thankful to Dr. P. Balachandra, Senior Scientific Officer, of the Department of Management Studies (DoMS), Indian Institute of Science (IISc), Bangalore. He has provided crucial and authoritative information and advised at various stages of my research work. He has helped in fine tuning the objectives, selecting various stake holders, preparing the questionnaires for data collection, arranging the contents of the thesis, etc. To put in simple terms “he has provided solution, whenever I went to him with a problem”.

I am thankful to Dr. H. Nagana Gouda, Asst. General Manager, Karnataka Renewable Energy Development Ltd., (KREDL) who has supported me during various stages my research and given valuable suggestion and necessary data related to research work.

A special thanks is also due to Mr. M.C. Mallikarjune Gowda, GM, HSE, Gamesa Wind Turbines Pvt. Ltd. For the timely assistance and support in providing vital information and necessary data at various stages of my research.

I also want to thank P. Kanagavel, Scientist & Unit Chief, I/C Information, Training, and Commercial Services, Centre for Wind Energy Technology (C-WET), Chennai, and Mr. Rajendra Kharul, Senior Fellow & Head, Centre for Wind Power, World Institute of Sustainable Energy (WISE), for providing valuable input during the data collection work. They provided useful information connection with policy, barrier, and economic aspects of wind energy conversion systems.
I cannot forget to thank all the stake holders in and around the wind farm clusters at Chitradurga, Gadag, and Davangere, for having spared their valuable time during the discussion with me at the time of field visits. They furnished me crucial data pertaining to their wind farm cluster, without which my research would not have been possible. I thank all the engineers working at various power grid receiving stations for providing power generation details from different wind turbine generators.

I desire to place on record my appreciation to the authorities at Kuvempu University. I wish to place on record, my gratitude to all the teaching and non-teaching staff of Industrial & Production Engineering, UBDTCE, Davangere and also the Principal and college staff for their support during my research work. I am thankful to my parent institution GM Institute of Technology (GMIT), Davangere, for providing me an opportunity to pursue my doctoral studies. It is a matter of great pleasure to thank the Management of GMIT specifically to our Honorable Member of Parliament Mr. G.M. Siddeshwara, Mr. G.M. Lingaraju, Secretary, and Mr. Y.U Subhashchandra, Administrative Officer. Special thanks to Principal Dr. S.G. Hiremath, Dr. B.T. Patil, former Principal of GMIT, and Prof. B.T. Achyuta, former Principal of BIET. I wish to thank all my teaching and non teaching staff at GMIT, specifically Dr. T.S Manjunatha and Mr. M.C. Muruges for the moral support and affection I got from them. Memorable thanks to all my research colleagues.

I am ever grateful to my worshipful parents Sri. D.G Dyamappa and Smt. Gowramma, who despite living in a village always had a broad vision and blessed me for achieving excellence in all my academic pursuits. I express my heartfelt gratitude to my beloved sisters and their children especially Smt. D.G. Indiramma for their encouragement and understanding of all my endeavors. I also thank all the family members of Late Patel Sanna Dyamappa.

I am grateful to Dr. S. Shanmukhappa, Prof. & HOD, Department of Chemical Engineering, Bapuji Institute of Engineering & Technology, Davangere, who always had a broad vision especially for me and blessed me for achieving excellence in all my academic pursuits and has given valuable hints and suggestions in my life. I am happy to thank our best family friend Sri. G.S. Mallikarjuna Swamy and Mr. N.M. Gowda and Family for the love and support extended to me.

Last, but certainly not least, I am very much indebted to my wife Veena N.S, for providing me the much needed inspiration and support. Finally, I thank my beloved kids, son Jitesh Rajkumar and daughter Deeksha Rajkumar, for bearing with my varying moods during the research period. I owe a lot of time to them since they were deprived of my due share of time towards them, in view of my tight academic schedule.
