ACKNOWLEDGEMENT

Words are inadequate to express my sense of gratitude to Dr (Mrs) Alka Prakash, my supervisor and mentor. Her kind and valuable guidance, useful criticism, words of wisdom and personal interest during the entire course of this investigation have been a source of encouragement. I thank her for providing necessary facilities, for instilling in me a new perspective towards research and in making this work an enjoyable experience.

I am extremely grateful to Prof. Sant Prakash, Head, Department of Zoology, Faculty of Science, D.E.I. for his proficient advice and help during the research.

I am thankful to all my teachers who taught me in M.Phil and nurtured my mind. They were the constant source of encouragement and strength.

I express my deep sense of gratitude to my dear seniors- Dr. Priyanka, Ms Mahima Verma, Mrs Garima, Ms Anjali, Ms Shruti, Ms Nikita for their ever willing encouragement, help and for dealing patiently all the little questions that I asked them during the course of research.

I am grateful to Mr Bhagat and Mr Vinay for their general help and support.

I would like to thank my dear friend: Appeksha Mehra from coming on Sundays to staying up late in the evenings, we shared the same story and worked hard together. This learning experience would not have been fun without her.

I also thank my parents for their constant support and keeping faith in me. I can never thank them enough for their understanding, every time when I stole my family time and put it in my work.

I cannot find words to thank The Supreme Father. He was remembered every time I got result and every time I did not.

Date: 30-08-2013
