CHAPTER 1: PRELIMINARIES

1. Category Theory 1
2. Frames and Topological Spaces 8
3. Fuzzy Sets 13
4. Fuzzy Topological Spaces 15
5. Filters 22

CHAPTER 2: Various Notions of Uniformity in Fuzzy Set Theory

2.1 Introduction 25
2.2 Lowen Uniformity in Fuzzy Topology and Related Concept 26
2.3 T-Uniformity in Fuzzy Topology 31
2.4 Hutton Uniformity in Fuzzy Topology 37

CHAPTER 3: Various Notions of L-Valued Uniform Spaces

3.1 Introduction 49
3.2 The Sostak L-fuzzy Topological Spaces 50
3.3 SL-Topologies Associated to L-Uniform Spaces 54
3.4 SL-Topologies Associated to Generalised Uniform Spaces 60
3.5 SL-Topologies Associated to Hutton L-(quasi) Uniform Spaces 65
3.6 Hutton L-quasi Uniformizable Spaces 70
3.7 Relation Between Hutton Uniformities and Hutton L-uniformities and L-Uniformities 75

CHAPTER 4: Π- Uniformity by Weil Entourages

4.1 Introduction 84
4.2 Uniform Spaces 84
4.3 Π-Valued Spaces and Π-Valued Uniform Spaces 89
4.4 Π-Weil Uniform Spaces 99
4.5 The Isomorphism Between the Categories Π-Unif, Π-w Unif and Hutt- Unif 115
CHAPTER 5: The Study of the Structured \( \mathcal{I} \)-valued Frame

5.1 Introduction 123
5.2 Covering Uniform Frames 125
5.3 \( \mathcal{I} \)-Valued Frames and \( \mathcal{T} \)-Valued Topological Spaces 128
5.4 \( \mathcal{I} \)-Valued Frames and Frames 134
5.5 Covering \( \mathcal{I} \)-valued Uniform Frames 138
