2.7 A framework of the word curriculum ................................................................. 23
  2.7.1 Different approaches to curriculum ............................................................. 24
  2.7.2 The subject item centered approach to curriculum models ....................... 24
  2.7.3 The benchmarking approach to curricular models ..................................... 25
2.8 The approaches of the top world hospitality curriculum .................................. 26
  2.8.1 Skill/Craft Approach ..................................................................................... 27
  2.8.2 Tourism Approach ....................................................................................... 27
  2.8.3 Food Systems/Home Economic Approaches ............................................... 27
  2.8.4 Business Administration Approaches ....................................................... 28
  2.8.5 Combined Approaches ............................................................................... 28
2.9 The Australian approach to tourism and hospitality education model ............... 28
2.10 Undergraduate hospitality curriculum at the Cornell University ....................... 29
2.11 Private Institutes of Hospitality programs in Hotel Chain industry partnership
  2.11.1 The Oberoi School – OCLD ........................................................................ 31
  2.11.2 Welcomgroup Graduate School of Hotel Administration ......................... 31
  2.11.3 Institute of Hotel Management Aurangabad ............................................. 32
2.12 The hospitality (Hotel Management) degree programmes in India .................. 32
  2.12.1 The core subjects in all curricula in hospitality education in India ......... 33
2.13 Hospitality Curriculum subject importance and stakeholder perspectives ........ 34
2.14 Hospitality Curriculum and employability skills ............................................. 36
2.15 Hospitality curriculum model challenges ....................................................... 37
2.16 The Vision of Hospitality Education ............................................................... 39
2.17 Conclusion ......................................................................................................... 41

III: Research Methodology ............................................. 43-60
3.1 Introduction ......................................................................................................... 43
3.2 Importance of Course Subjects in the Hospitality Curriculum models .......... 43
3.3 The Research Gap .............................................................................................. 44
3.4 Problem Statement and Research Questions ................................................... 46
  3.4.1 Research questions ...................................................................................... 47
3.5 Objectives of the Study ...................................................................................... 48
3.6 Pilot Study .......................................................................................................... 50
  3.6.1 The subjects that were eliminated on factor analysis ................................. 51
3.7 Research Design ................................................................................................. 52
3.7.1 Exploratory Phase .................................................................52
3.7.2 Descriptive Phase .................................................................53
3.8 Universe/Population of the Research ..........................................53
3.9 Population of the study and Sampling Design ............................54
3.10 Convenience Sampling Technique – Merits & Demerits ............54
3.11 Data Collection Tool – Questionnaire Development ................57
3.12 Evaluation of Goodness of Measure .......................................58
3.13 Data Collection Process ...........................................................58
3.14 Data Analysis and Statistical Techniques ...............................59
3.15 Conclusion .............................................................................60

Chapter IV: Data Analysis and Interpretation 61-183

4.1 Introduction .............................................................................61
4.2 Interpretation and Coding of data ...........................................63
   4.2.1 Interpretation of coding the demographic data:
       Section B question 1-14 .........................................................63
4.3 Methods of data analysis and interpretation ..............................64
4.4 Socio demographic data of all three stakeholders combined .......65
4.5 Socio-demographic data of management trainees ....................84
4.6 Socio demographic data of industry practitioners ....................87
4.7 Socio-demographic details – Faculty .......................................99
4.8 Descriptive Statistics on Course subjects .................................103
   (Mean, Std. Deviation, Skewness and Kurtosis)
4.9 Course subject importance – Rank order based on the mean values ....109
4.10 Reliability and Validity of the scales ......................................114
4.11 KMO and Bartlett’s Test ...........................................................115
4.12 Factor analysis - Identification of factors as categories based on the theoretical
   framework review ....................................................................116
   4.12.1 Factor 1- Core operational.................................................116
   4.12.2 Factor 2- Core business ....................................................118
   4.12.3 Factor 3- Core concentrates .............................................120
   4.12.4 Factor 4- Professional electives .......................................122
   4.12.5 Factor 5- Majors ...............................................................122
   4.12.6 Factor 6- Support electives .............................................124
4.12.7 Factor 7- General electives .................................................................125
4.12.8 Factor 8- Minors ...............................................................................126
4.13 Correlation Analysis ..............................................................................128
4.14 Analysis of variance (ANOVA) Overall (all three stakeholder groups) Age 129
  4.14.1 Age group of all three stakeholders ................................................129
  4.14.2 (ANOVA) Overall all three stakeholder – Category of
  stakeholders ..................................................................................................132
  4.14.3 (ANOVA) Overall all three stakeholders-Years of experience .........134
  4.14.4 (ANOVA) Overall all three stakeholders-Educational Qualification.136
  4.14.5 T-test – Gender difference – Overall all three stakeholders ..........140
4.15 Stakeholder category wise analysis, Industry practitioners ..................141
  4.15.1 Age group One way ANOVA ...............................................................141
  4.15.2 Industry practitioners – years of experience ......................................143
  4.15.3 (ANOVA) Industry practitioners, Educational qualification ..........146
  4.15.4 T-test- Gender difference, Industry practitioners ............................149
  4.15.5 T-test industry practitioners, category of hotels ............................150
4.16 Management trainee data analysis .............................................................152
  4.16.1 (ANOVA) - Category of hotels ..........................................................152
  4.16.2 (ANOVA) – Educational qualifications .............................................153
  4.16.3 T-test – Gender differences, Management trainee ............................154
4.17 Analysis of variance (ANOVA) Faculty as stakeholder .........................155
  4.17.1 (ANOVA) – Age group faculty .........................................................155
  4.17.2 (ANOVA) years of experience faculty .............................................158
  4.17.3 (ANOVA) qualification of faculty .....................................................160
  4.17.4 T- test, Gender difference – Faculty ................................................163
4.18 Responses to open ended question, new subject items .........................164
4.19 Results of open ended question no 13 - Qualitative statements ............166
4.20 Conclusion ...............................................................................................182

Chapter V: Discussion, Conclusions and Recommendations 184-220
5.1 Introduction ...............................................................................................184
5.2 Discussion of previous research and literature review ............................185
5.3 Discussion on questionnaire .....................................................................186
5.4 A brief discussion on the stakeholders .....................................................186
5.4 1 Industry.................................................................186
5.4.2 Academia..............................................................186
5.4.3 Graduate Management Trainees.................................186
5.5 Discussions of the results and the major findings of the study are as follows
5.5.1 Stakeholder 1 Industry Practitioners ..........................187
5.5.2 Stakeholder 2 Academia and faculty .........................190
5.5.3 Stakeholder 3 Management trainee ..........................192
5.6 Discussions of results of all three stakeholders ...............193
5.7 The suggested subject based hospitality management undergraduate curriculum model ............................................196
5.7.1 The suggested Hospitality curriculum model ................196
5.7.2 Core Operational ..................................................199
5.7.3 Core Business......................................................200
5.7.4 Core concentrates ...............................................202
5.7.5 Majors ................................................................204
5.7.6 Professional elective .............................................205
5.7.7 Support elective ....................................................207
5.7.8 General Electives .................................................208
5.7.9 Minors ................................................................209
5.8 Recommendation .....................................................210
5.9 Conclusion ..................................................................214

Publications and Conference Presentations ........................................... 221

References ........................................................................... 222-236

Annexures ............................................................................ 237-260

Annexure 1: Questionnaire ...................................................237-238
Annexure 2: Operational terms and Definitions .......................239-242
Annexure 3: Benchmarked subject items of ten top international hotel Schools And 2 Indian models 243-260
