ACKNOWLEDGEMENT
Word of Gratitude

Words lose their significance when it comes to making a statement of gratitude. Yet I take this opportunity to express my sincere gratitude and regards to my reverend & kind teacher **Prof Dr. Meena Varma** whose keen and personal interest, constant and refreshing attitude and whole hearted help went all the way in presenting this work. She generously contributed her time and efforts during the task. I thank her not only for her **keen interest** and **constant guidance** but also for the **motherly care** and faith which gave me the self confidence to complete this endeavour.

**As a mother holds hand and teaches her child to walk, my guide has held my hand to take me a step forward in my professional life.** I owe a lot to her and it can never be repaid.

I consider it a privilege to have worked under her able guidance.

\[\underline{\text{Vandana Varma}}\]
To reverend Mommy and Daddy

From deep core of my heart I express veneration and love for all the pains and inconveniences they had gladly accepted and motivated me to quench my thirst for knowledge. I am extremely grateful to them for making me feel confident in times of desperation. Their selfless love and unfailing support are indispensable. They inculcated in me Players win, Players lose, Players prepare, Players practice, Players get hurt but Players get up. No matter what the outcome is Players always play! I am much delighted in taking this opportunity. In real sense I owe a great deal to them, which I don’t think will ever be able to repay.

Vandana Varma
Acknowledgement

Thanks to the Almighty with whose blessings this voyage has come to a final halt. At this juncture, I find myself overwhelmed with feelings and would not miss this opportunity of acknowledging all those who have paved the path for me, who flooded the path with light of their knowledge, who made every moment on this path happier dearer and better.

It is my pleasure and solemn duty to express deep sense of gratitude to Dr Pushpa Varma, Dean & CEO M.G.M. Medical College Indore, for permitting me to undertake this study and avail the various facilities in this institution.

I am deeply indebted to Dr Mrs. Purnima Dey Sarkar, Prof & Head Department of Biochemistry for her ever enthusiastic and at the very same time relaxing attitude that is contagious. I sincerely express my gratitude and thanks to her.

I am extremely delighted to extend my gratitude to Dr Mrs. Savita Vyas, Associate Professor in the department of Pharmacology, whose wisdom and experience were a great help in establishing the manual methods of analysis used in this study.

It is difficult to articulate through words my deep sense of regards to Dr S Nandedkar, Professor & Head department of Pathology, SAIMS Medical College and Dr Rajesh Bharani, Ex- Assistant Professor Department of Medicine MGM Medical College, for their ever willing attitude to help in times of need.

A special vote of thanks to Dr Deepa Raghunath and Dr Richa Nigam for their guidance in working on the SPSS software and for solving all my queries related to statistics and tabulation of this work.

I have been particularly thankful to my friends Dr Anuradha Jain, Dr Deependra Sharma and Dr Rashmi Kulkarni for their tremendously helpful and supportive contributions.

I would also like to acknowledge the “keen, prompt and always ready to help” gesture of the library staff MGM Medical College and the credit for it will also pass on to the librarian Mrs. Dirgha Shoupurkar.

I am extremely thankful to Dr Sangita Paneri, Associate Professor in the Department of Biochemistry for her everlasting encouragement and cooperation which helped me in completing my work. I can never forget my friends and Demonstrators in the Department of Biochemistry Dr Meenal Vaidya, Dr Mukesh Meena and Dr Pravesh Hargaonkar for whatever they gave me in these recent years specially Dr Leena Kanthalia has shown unfailing personal support always by her valuable and affectionate suggestions during the path of life. It is a deep sense of appreciation which
I feel for Dr Deepak Verma for helping me collect the necessary armature required. I have been fortunate to have his constant and unfailing help and support always and especially to avail his computer graphics knowledge, words might never be able to express my feeling of gratitude.

I would like to specially thank whole of my family for their moral support and faith in me. My father in law has taught me a golden rule “work is worship” which is a morale booster in all phases of life.

Words cannot express the magnitude of my gratitude and thankfulness I have reserved for my husband Dr Amit Varma, Professor of Pathology, for the constant and affectionate help he has always showered. He has always encouraged me to take up this task and during the course when life was difficult he has always been besides. He has always believed in me and has given me the liberty to choose my path but has been with me whenever I was weak and indecisive. I sincerely express my gratitude and thanks for his inspirative and valuable suggestions for accomplishing the task. Without his help this would have been an uphill task.

Tejal and Kunjal need to be specially mentioned for being very loving, caring and understanding. My daughters have made me laugh, made me proud, hugged me tight, seen me fall, cheered me on and kept me going strong. I owe apologies to them if I had not been able to attend to them.

I would especially like to thank Mr Rajesh Mandloi of Mandloi Computers for such an artistic presentation of this work with a special mention of the novel graphs, without his computer graphics expertise this manuscript would not have been in the present form.

Mr Amol of SAIMS Medical College and Sadhna Mandir Binders deserve lot of appreciation for bringing out this work nicely.

Last but not the least I wish to thank all my near and dear ones who have always stood beside me in times of need and prayed for me in times of difficulty.

My acknowledgement would be incomplete if I don’t express my gratitude to the honourable subjects who volunteered to participate in this study.

I also acknowledge the help and support of all those people whose names have been inadvertently missed here.
