ACKNOWLEDGEMENTS

To express gratitude and obligation in words is not easy. Today when I look back, my heart is filled with intense feelings. First and foremost I wish to thank God Almighty for bestowing me with the qualities of hard work, sincerity, perfection and perseverance, which has helped me to complete this work successfully.

I extend my deepest gratitude to my respected and reverted guide Dr. Mrs. Purnima Dey Sarkar Prof. & Head Department of Biochemistry, M.G.M. Medical College Indore for her kind supervision. She had always provided me with moral and academic support. Her esteemed suggestions and critical analysis at every juncture has helped to give this study its final configuration. Her kind words and regular guidance made me appear this task easy going and meaningful. I shall be indebted to her life long for cultivating in me the art of self-criticism and precision oriented scientific research. Her guidance, valuable suggestions and constant encouragement made this work successful.

I am thankful to Dr. S. L. Garg, Principal, Prof. R. S. Maheshwari, Head Department of Biochemistry, Prof. M. M. P. Shrivastava, Head Department of Biotechnology, Prof. A. R. Batham, Holkar Science College Indore, for extremely helping me to complete this work successfully.

I am thankful to Dr. Anand Kar, Dean Life sciences Faculty, and Dr. Narendra Dhakad, Additional Director of Higher Education for helping me throughout this work.

I am very thankful to Prof. Deepak Bhatnagar, Head Department of Biochemistry, Prof. Rekha Gadre, Prof. Meeta Jain, Department of Biochemistry, School of Studies, Indore for supporting me throughout this work.
I am thankful to Prof. R. K. Nagar, Christian Eminent College, Indore for supporting me throughout this work.

Undertaking this work was challenging and tough. But the grace of God, blessings of my parents, elders, love and warmth of my son and support of my relatives and friends have made this dream come true.

I am also thankful to all my colleagues, friends and my son Shashank for supporting me throughout the making of this thesis and suffered my bad temperament.

I would be failing in my duties if I do not extend thanks to the patients who cooperated to their extremes during the period in which the study was executed.

Last but not the least I bow my head with reverence to Almighty God whose blessings never ceases.
