Acknowledgements

Right from the commencement of this project, it became quite clear to me that a researcher cannot complete a Ph.D. thesis alone. Although the list of individuals I wish to thank extends beyond the limits of this format, I would like to thank the following persons for their help, dedication, prayers, and support:

My esteemed supervisor, Dr. Ravi Chand Singh, a personage of striking insight has played a pivotal role in my life as a researcher. I am deeply indebted to him for his critical wisdom and passionate involvement in this project. Working under a man of unimpeachable integrity and uncompromising principles was indeed a matter of pride for me.

First time when I had acquaintance with Mr. Paramdeep Singh Chandi, IISER, Mohali, I never thought that I would have an opportunity of working with such an erudite scholar. His unconditional help and invaluable guidance throughout this thesis is commendable.

I am beholden to Dr. Lakhwant Singh, Head, Department of Physics, for extending generous support. I am grateful to Dr. Atul Khanna, Dr. R. Thangaraj, Dr. S. S. Malik and other faculty members for their help at the time of need. I am thankful to laboratory staff of the Department who catered the required facilities to augment the research work.

I am obliged to Dr. Bindiya Arora and Dr. Manmeet Pal Singh for their valuable suggestions and guidance in the writing of this thesis.

I must express my sincere thanks to Mr. Onkar Singh, Ms. Kanika Anand, Ms. Anita Hastir, Ms. Jasmeet Kaur, Mr. Vivek Talwar who supported me throughout this odyssey.

I do not have words enough to honour my parents whose constant encouragement and moral support has always been there without which it would not have been possible to carry out this research work.

Last but not the least, I owe my reverence to the Almighty, by whose grace I have been able to complete my research work successfully.

Nipin Kohli
