The work embodied in this thesis entitled "Studies on the interaction of root-knot and reniform nematodes with fungi on tomato" is a faithful record of the bonafide research work carried out by Mr. Ali Anwar under my guidance and supervision. His work is upto-date and original. No part of this thesis has been submitted for any other degree or diploma. He is allowed to submit this thesis to the Aligarh Muslim University, Aligarh for the consideration of the award of the degree of **Doctor of Philosophy in Agriculture (Plant Pathology)**.

(M. M. ALAM)
