Acknowledgements

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of five years of work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

The first person I would like to thanks is my supervisor Dr. (Mrs.) Shubhada Kumbhaj, Professor, Deptt. of Applied Physics, Shri G. Institute of Technology & Science, Indore. I have been in her project since October 2007 when I started my research career. Her wide knowledge and logical way of thinking have been of great value for me. Her understanding, encouraging and personal guidance have provided a good basis for the present thesis. She is not only a great teacher with deep vision but also and most importantly a kind person. Her trust and scientific excitement inspired me in the most important moments of making right decisions. Her company and assurance at the time of crisis would be remembered lifelong.

My sincere thanks are due to Dr. (Mrs.) P. Sen, Professor, School of Physics, DAVV Indore, for providing me constant encouragement and guidance to accomplish this research work. She was always available when I needed her advices. She took me on the process of learning and made herself available even though her very heavy work and teaching schedule. I thank for her insightful suggestions in multi-disciplinary fields, which not only benefited me a lot in this research, but also will definitely benefit my future career.

I am extremely grateful to Dr P. K. Sen, Professor & Head, Deptt. of Applied Physics, SGSITS Indore, who gave me the confidence and support to begin my research career in Optoelectronics. I express my deep sense of gratitude to him for his keen interest, continuous assistance and superb guidance in the materialization of this thesis. I deeply respect him for indepth knowledge of the
subject and providing all the facilities and a good working environment in the Department.

I am deeply grateful to the Director of Shri G. Institute of Technology & Science, Indore, for providing all the necessary facilities in the Institute.

I would also like to thank sincerely to Dr. Ravishankar Kamath, the Director of Malwa Institute of Technology, Indore, for his constant encouragement and support for performing my research work.

I am heartily thankful to Dr. J. Thomas Andrews for numerous insightful discussions, and encouragement throughout this work.

I would like to gratefully acknowledge the support of Dr. Jitendra Kumar, Dr. P. K. Dubey, Dr. Namita Sisodia, Dr. Abbas Ali Koser and Late Dr. Sheetal Kapoor, who helped me immensely by giving encouragement.

I thank all the teachers of Applied Physics Deptt. and my seniors Dr. Manish Bafna, Dr. Ravikant Choubey, Dr. Saral Kumar Gupta, Dr. Rashmi Trivedi, Dr. Malayaj Das, Dr. Md. Skakil Qureshi, Dr. Swati Goyal. They have been a source of inspiration for me for their concern and support.

I wish I would never forget the company I had from my fellow research scholars. My friends including Mr. Koushik Choudhary, Mr. Jitendra Solanki, Mr. Saikat Chattopadhaya, Mr. Vipin Koushik, Mr. Omprakesh Choudhary, Mr. Nishit Malviya and Sonal Choksey have always been there to share my joys and sorrows. They made me feel light in many a tensed situations. I feel, without them I could not have ever completed my work.

A special word goes to Professor H. N. Udupa, Dean Academic and all my work colleagues of the Malwa Institute of Technology, Indore that in some way helped me during my work, in particular to Ms. Sheetal Bawne and Mr. Vishal Jain for extending the helping hands.

I would like to thank the staff of the Applied Physics Department, Mrs. Rashmi Kanadkar, Mr. Lokesh Jain, Mr. Arvind Malviya, Mr. Devendra Pal,
Mr. Sanjay Jadhav, Mrs. Ramkali Bai, Mr. Jitendra Sharma and Late Gajanan Sharma for their cooperation.

I cannot fail to acknowledge the B. E. and M. Tech. students of Shri G. Institute of Technology & Science, Indore and Malwa Institute of Technology, Indore. Teaching them has been a great learning experience.

I am also very grateful to my faithful friends, who absorbingly distracted me, but also supported me in numerous ways, and never stopped asking: “When will it be finished?” Thanks to: Mr. Deepak Aithekar, Mr. Naresh Rana, Mr. Pramod Sharma, Mr. Mahesh Dhance, Mr. Hemant chavda and Ms Deepika Tailor (have I forgotten anybody? – those not mentioned are also included!)

I would like to thank the University Grant Commision (UGC) New Delhi for financial support during my first three years as a research fellow.

I would like to acknowledge my family members for their tireless love and support over the years. A special word of thanks goes to my Dad and Mom, Manakchand Pawar and Manorama Pawar, for working hard to provide me with the best educational opportunities, for supporting all of my decisions, and for serving as the shining examples of how to live a rewarding and meaningful life. Without them, I would not have had the opportunity to study for such a long period.

I am also thankful to my sisters, Kamini and Nisha, and my brother in law Virendra Mandle for their understanding, endless patience and encouragement when it was most needed. I believe I own deepest thanks to my entire family who have supported me since I was born.

Finally, I thank from the core of my heart to my fiancée Poonam Namdeo, for having patience, for all the comforting words in the toughest hours, for all the loving, enthusiastic help and support.

Santosh Pawar
