ACKNOWLEDGEMENTS

First, I owe a debt of gratitude to my supervisor Dr. R.L. Singh, Professor and Head, Department of Biochemistry and Coordinator of Biotechnology Programme, Dr. PML Awadh University, Faizabad, for providing me all the facilities during my research work. Words are shorts to express anything for him. His immense knowledge, valuable suggestions, constant encouragement and moral support always helped in my research and writing of this thesis. Under his guidance I successfully overcame many difficulties and learned a lot. I could not have imagined such a better advisor and mentor for my Ph. D. His unflinching courage and conviction will always inspire me and I hope to continue to work with his noble thoughts.

I am extremely privileged to express my deep and sincere gratitude to my co-supervisor, Dr. Poornam Kakkar, Chief Scientist and Head, Herbal Research Section, CSIR-IIFTR, Lucknow for providing necessary infrastructure and resources to accomplish my research work. Her wide knowledge and her logical way of thinking have been of great value for me. Her personal thoughts, aesthetic suggestions and efforts provided a good basis for the present thesis. In every sense, none of this work would have been possible without her guidance and help.

I gratefully acknowledge Dr. Rajesh Singh, Dr. Sangram Singh and Mrs. Jyotsna Singh (Herbal Research section, CSIR-IIFTR, Lucknow) for their helpful suggestions and comments during my Ph.D. work. I take this opportunity to say the heartfelt thanks to Dr. I.D. Bhatt, Scientist, GB Pant Institute of Himalayan Environment and Development, Kosi Katarmal, Almora (Uttarakhand) for conduct and interpretation of HPLC analysis.

I wish to express my sincere thanks to Dr. B. N. Singh, Dr. Garima Upadhyay, Dr. Madhulika Tripathi and Dr. Brijesh Singh for willingly devoting so much time during my experimental works.

I am indebted to my many colleagues for providing a stimulating and fun filled environment. My thanks go in particular to Mrs. Mamta Shukla and Mr. Pankaj Singh who helped me a lot during my thesis. I am ever indebted to Mr. Rajat Singh, Mr. Sri
Dr. Nachiketa Verma and Mrs. Rekha Agrawal. Thanks are also due to Mr. Surendra Kumar, Mr. Kumar Maurya, Mr. Kuldeep Kumar, Mr. Akhand P. Singh, Late Mr. Vijay, Mr. Sanket Chaturvedi and Mr. Awasthi (IITR, Lucknow) for extending help in many ways. I admire their distinguished helping nature.

I am also thankful to Dr. Sapna Sharma, Mrs. Jaya Chaturvedi, Miss. Fatima Rizvi, Mrs. Radhika Kapoor, Mrs. Archana Kumar, Ms. Minakshi Tripathi, Mrs. Shruti Singh and Mr. Vivek Varshani Singh for their help.

I wish to thank my close friends, Mrs. Suruchi Sinha, Mrs. Poja Srivastava, Mrs. Pramila Singh, Mrs. Neelam Sharma, Mrs. Kalpana Pande and Mrs. Priti Srivastava for their love and moral support. Mr. Atul Singh deserves special mention here for their help in the plant sample collection related to my work. Besides this, several people have knowingly and unknowingly helped me in the successful completion of my thesis.

It’s my fortune to gratefully acknowledge the support of some special individuals. Words fail me to express my appreciation to Dr. Uma Lakhan Singh w/o Prof. R. L. Singh and their family members Ms. Suneha Bisen, Mrs. Monika Singh and Mr. Saumitra Bisen for their support, generous care and the homely feeling at Faizabad. She was always beside me during the happy and hard moments to push me and motivate me.

I would like to thank, Head, Department of Biochemistry, Dr. RML Awadh University, Faizabad and Director, CSIR-Indian Institute of Toxicology Research (IITR), Lucknow for providing resources to carry out research work. I also acknowledge University grant commission, New Delhi for granting me research fellowship under UGC programme “Research Fellowships in Sciences for Meritorious Students (RFSSMS) Scheme” to carry out my research work smoothly. I am grateful to all my laboratory co-workers of both institutes and university for their cooperation and valuable assistance.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of my husband Mr. Vipul Kumar Singh who has been always with me when I really needed. Thank you, you have never been sufficient but it is said with appreciation and respect for his understanding, care and precious friendship. The encouragement and support of my husband and our lovely and
joyful children’s Tanvi Singh and Ritika Singh is a powerful source of energy and their smile helped me a lot to work for hours tirelessly.

I must give heartfelt thanks to my parent in laws Mrs. Vidyawati Singh and Er. Vinod Singh for their love, care and also their patience. Their kind supports have been of great value in this study. I gratefully acknowledge to my brother in law Mr. Prasant Kumar Singh for always making a pleasant atmosphere, their valuable help and support.

It's my pleasure to acknowledge all my family members for their constant moral support. I am extremely thankful to Ms. Archana Singh, Ms. Divya Singh, Ms. Priyanka Singh, Ms. Singh, Mr. Sandeep Kumar and Mrs. Sandhya Verma and her family, Mr. Vimal Singh, Mrs. Ritu Singh, Mrs. Nitu Singh, Mrs. Madhu Singh and their family for create a pleasant atmosphere for me. I would also like to extend huge, warm thanks to my sister Mrs. Shraddha Singh, her husband Mr. Yashwant Singh and her family, my brother Mr. Avinash Singh and his wife Mrs. Nidhi Singh and my younger brother Mr. Harshendra Singh for their valuable help and support.

Finally, I would like to pay high regards to my mother Mrs. Shobha Singh and my father Mr. Ram Nayan Singh for their love, care, sincere encouragement and inspiration throughout my research work, who praised me with a love of science, supported me in all my pursuits and lifting me up this phase of life. I owe everything to them.

One of the joys of completion is to look over the journey past and remember all the friends and family who have helped and supported me along this long but fulfilling road.

Upma Singh
