ACKNOWLEDGEMENT

I attempt to express my sense of indebtedness and profound gratitude to my guide and teacher Dr. R.P. Tripathi, M.S. (Orth.), Lecturer, Department of Orthopaedics, M.L.B. Medical College, Jhansi for his most valuable guidance, suggestions & healthy criticism. Without his endless courage to me, the present work would not have been seen in the light of this day. It was really the height of sincerity and kindness on his part to spare his valuable time whenever approached by me.

I am highly grateful to Dr. P.K. Dabral, M.S. (Orth.), Professor and Head of Department of Orthopaedics, M.L.B. Medical College, Jhansi, for his constant supervision, encouragement and over helping attitude and also for kind permission to conduct this work in the department.

I am also grateful to Dr. Rakesh Sharma, M.S. (Orth.) whose untiring help has been a source of inspiration to me in carrying out this work.
The unaccountable help of my friends needs no words to express my thanks.

I have a heartful sense of gratitude for the love and affection of my parents and other family members which has sustained me throughout.

I am sincerely thankful Mr. K. Lal for his untiring efforts in typing this work in exemplary manner.

I dedicate this work to my patients whose kind co-operation helped me all the time.

( RAJESH KUMAR JAITLY )
