CONTENTS

PREFACE: .................................................. 1-vi

CONTENTS: .................................................. vii-x

LIST OF TABLES: ......................................... xi-xv

CHAPTER-I: Theoretical Background of Alienation:
Concept and Theories ........................................ 1-26

Introduction; the debate over theoretical and empirical significance of the concept of alienation; sociological history of the concept - Weber, Durkheim, Simmel, Schaff, Israel, Seeman, etc., Sociological conception of alienation; theories of Alienation - Mass Society Theory; Social Disadvantages Theory; Personal Failure Theory and (Merton, Meier and Bell) Social Isolation Theory; and Political Isolation Theory.

CHAPTER-II: Political Alienation: A Survey of
Researches ................................................... 27-52

Campbell et al., Levin; Schick; Horton; Patterson et al.; Finifter; McDill and Ridley; Erbe; Hill and Johnson; Olsen; Abbott; Jaros et al.; Bradley; Schwartz; Palma Di; Bennett and Kleck; Krawe et al.; Seeman; Pinard; Aberbach; etc.

CHAPTER-III: The Present Study: Research Design
and Strategy ................................................. 53-98

(I) Statement of the problem (II)
Objectives (III) Hypotheses (IV) Political Alienation and its Measurement
(V) Terms are Concepts used in the study - (i) **Demographic variables** - Age, Caste and Political Orientation, (ii) **Social Opportunity variables** - Education, Economic Status, Class-identification. (iii) **Community Assimilation Variables** - Meerut city residency, Spatial mobility (present residence), Spatial Mobility (previous residence), Urban Socialisation, (Rearing up) Urban Socialisation (place resided), Meerut city residency (apartments or houses lived in) (iv) **Personal Achievement Variables** - Career mobility, Generational mobility, life chances (v) **Mass Society Variables** - Informal relationships: Involuntary associations; Index of voluntary association membership, Index of voluntary association attended, Index of voluntary association participation, Index of voluntary association involvement; (vi) **Political Assimilation Variables** - Index of voting behaviour, Index of political discussion, Index of political exposure, Index of political contacts, Index of political involvement, combined index of political assimilation, combined index of social opportunity (vii) **Mode of Analysis** (viii) **Research Design**:

(a) Sample and sampling; (b) Area of study; (c) Methods of study; (d) Tools of Data Collection; (e) Techniques used.

**CHAPTER-IV: Social Opportunity and Demographic Factor Related to Political Alienation: A Test of Social Disadvantages Theory**

(A) Social Opportunity Indicators - Profession
and political alienation; education and political alienation; economic status and political alienation; class and political alienation; sex and political alienation; Age and political alienation; Caste and political alienation; (B) Multivariate Analysis of Seven Social Opportunity Indicators.

CHAPTER-V: Mass Society Factors and Political Alienation
A test of mass society theory of alienation......153-203

(A) Indicators of Mass Society - informal relationships; voluntary associations, (B) Multivariate Analysis of mass society indexes; Mass society indexes with Demographic and social opportunity indicators simultaneously controlled; Mass society indexes with Demographic, social opportunity, and personal achievement factors controlled and related to political alienation; opposite prediction analysis; Mass society indicators as a whole related to political alienation with indicators of other variables controlled as a whole simultaneously. (C) Community Assimilation Indicators; measures of spatial mobility; measure of Metrop Residency; measure of childhood socialisation to urban life; Community Assimilation Indicators and Political Alienation when they are controlled simultaneously; Community Assimilation Indicators and Profession, Political alienation with political assimilation simultaneously controlled; Community assimilation indicators of political alienation with profession and each of the Mass society and political Assimilation Indicators simultaneously controlled; Community Assimilation Indicators as a whole related to political alienation with indicators of other
variables simultaneously controlled as a whole:
(D) Conclusions.

CHAPTER-VI: Political Assimilation and Political Alienation:
A Test of Political Isolation Theory of
Alienation .................................................. 204-239

(A) Indicators of Political Assimilation - voting
behaviour; political discussion, political
exposure; political contacts; political involvement
(B) Multivariate Analysis of Political Assimilation
Indexes - five indexes of political assimilation
simultaneously related to political alienation;
Indexes of political assimilation with profession
and community assimilation simultaneously controlled;
Indexes of Political Assimilation with professions
and mass society indicators (including community
assimilation) controlled;
(C) Multiple correlation
between various combinations of variables and
political alienation;
(D) Composite prediction
analysis; political assimilation indicators as a
whole related to political alienation with indicators
of other variables simultaneously controlled
as a whole; conclusion.

CHAPTER-VII: Personal Achievement Analysis: A Test of
Personal Failure Theory of Alienation ................. 240-279
Theoretical Background; Objective Indicators of
personal Achievement; Career Mobility; Generational
mobility; Life Chances; Life Chances related
to Political Alienation for each of the three
Professional Groups; Personal Achievement Indicators
related to Political Alienation; Composite Prediction
Analysis, Conclusion.

CHAPTER-VIII: Conclusion ............................................ 280-287
BIBLIOGRAPHY:
A) Indices:
B) Raw and T-scores of Political Alienation,
LIST OF TABLES

4.1: Relationship between occupation and political alienation.  

4.2: Relationship between education and political alienation.  

4.3: Relationship between education and political alienation for each of the three professional groups.  

4.4: Relationship between economic status and political alienation.  

4.5: Relationship between economic status and political alienation among professional groups.  

4.6: Relationship between class identification and political alienation.  

4.7: Relationship between class identification and political alienation among professional groups.  

4.8: Social opportunity variables simultaneously related to political alienation for each of the three professional groups.  

4.9: Profession and education variables simultaneously related to political alienation.  

4.10: Profession and economic status variables simultaneously related to political alienation.  

4.11: Profession and class variables simultaneously related to political alienation.  

4.12: Social opportunity variables simultaneously related to political alienation.  

4.13: Profession, education and class variables simultaneously related to political alienation.  

4.14: Profession, economic status, and class variables simultaneously related to political alienation.  

4.15: Profession, education and economic status variables simultaneously related to political alienation.
4.16: Relationship between sex and political alienation. 126

4.17: Relationship between demographic variables, and political alienation. 127

4.18: Sex variables related to political alienation for each of the three professional groups. 128

4.19: Demographic variables simultaneously related to political alienation for each of the three professional groups. 130

4.20: Relationship between age and political alienation. 134

4.21: Relationship between age and political alienation. 134

4.22: Relationship between caste and political alienation. 137

4.23: Relationship between caste and political alienation for each of the three professional groups. 138

4.24: Profession, sex, age and caste variable simultaneously related to political alienation. 141

4.25: Profession and sex variables simultaneously related to political alienation. 141

4.26: Profession and age variables simultaneously related to political alienation. 142

4.27: Profession, sex and age variables simultaneously related to political alienation. 143

4.28: Profession and caste variables simultaneously related to political alienation. 143

4.29: Profession, age and caste simultaneously related to political alienation. 144

4.30: Profession, sex and caste variables simultaneously related to political alienation. 146

4.31: Social opportunity variables simultaneously related to political alienation with other variables and indicators held constant. 147
