Acknowledgement

A research endeavor’s needs active cooperation, guidance aid and support of family, friends, philosopher’s, colleagues and institutions. The personal exertions most auspiciously had more than its fill in all admirations. One of my pleasing duties on this event is to thank and acknowledge all those who spared no pain and with assistance it has been possible for the research work to reach the stage of completion.

I feel much indebted to my research supervisor Dr. Ajit Joshi (Supervisor) Mewar University, Chittorgarh and Dr. B. P. Yadav (Co Supervisor) H. O. D., Department of Chemistry, Meerut College, Meerut who showed me the possibilities of the present study by examples as well as prescriptions. I would like to express my deep sense of gratitude and sincere appreciation for his efforts and cooperation, without his active involvement nothing could have been accomplished. He is not only a good person but also a renowned researcher. His keen intelligence and boundless energy, unweaving support and sweet inspiration has helped me in many ways, I failed to find appropriate word to thank him.

My heartfelt thanks to Dr. V.N.R. Pillai, V. C., Mewar University, Chittorgarh, Dr. Pranab Patra, Director, Jubilant Chemsys Ltd. Noida, Dr. Rohit Saxena, AGM, PI Industries Ltd. Udaipur, for their valuable suggestions. They deserve more than I can express in words, I will remain indebted always for them.

I must express my sincere thanks to Mr. D.P. Rajni, Microcare Lab, Surat, Gujrat, for carrying out biological assay and providing results.

I owe a deep depth of gratitude to my parents, whose prayers, and loving support have been at the back of every achievement in my life. The never ending blessings, moral values, inspiration and caliber for his study and for my life, I inherited my mother and father respected Mrs. Samuna Begum and Mr. Mohd.
Farooq, which I cannot express in words. I express my emotional thanks to my brothers Mohd. Farhad and Vaqar Ahmad for their everlasting support, comfortness and encouragement in the days of difficulties to accomplish my research work with devotion.

I also wish to express my heartily thanks to my friends Nadeem Malik, Sayyad Hassan, Md. Jawed Ashraf and Manish Singh for their valuable suggestion and support, whenever I need in my study and in my life.

Finally I would like to thanks a special person in my life Shabnam Hayat, who was always there cheering me up and stood by me through the good time and hard. I also want to thanks my two sons, Mohd. Arhaan and Mohd. Ayaan, who always cheering me up and make me feel energetic.

Despite the numerous problems that emerged during the execution of the task, work had reached completion. I feel that I have tried my best to give a flawless shape to my work.

Finally I would like to extend my heartfelt thanks to almighty GOD! Who gave me enough strength and showered blessings on me due to which only I could achieve this long cherished desire.
