Acknowledgement

My debts are great and too many, especially like the debts of God, which I can not even dare to acknowledge, and who bestowed on me the courage to carry out this research work.

It is a golden opportunity and proud privilege to work under the talented and inspiring guidance Dr. Kamni Jain, Head, Deptt. of Foods & Dietetics, Government PG College, Hoshangabad, MP. Her untiring supervision, persistent encouragement, unending zeal, conspicuous ability and constructive criticism has always been a constant source of my achievement. I am extremely indebted to her for being meticulous throughout our investigation and preparation of this manuscript.

I also bestow my heartfelt thanks & gratitude to Dr. Meenakshi Singh, Lecturer, HDFS, Institute of Home Science, Bundelkhand University, Jhansi for their timely guidance and creative suggestions during the tenure of the present study.

From the inner core of my heart, uncountable words of cordial veneration and gratitude are dedicated to the pious feet of my husband Mr. Shivdas and my daughter Aishi (Betoo) for love, affection, good wishes, blessing, constant encouragement and inspiration, showered by them for the achievement of my present educational assets.

I am also thankful to my elder brother Mr. Adesh Kumar and sister-in-law Km. Sona, who provided moral support, timely help and constant inspiration to me during the entire period of my study.

I am getting short of words to express my special regards to my father Mr. R. N. Chaudhary, my mother Mrs. Longsri, my father-in-law Mr.
Bhagwandeep and mother-in-law Mrs. Shanti, who have cooperated me all the time and helped me to overcome my mental tiredness and distress.

It was very difficult task for me to find appropriate words and express my sincere appreciation to my friends Kalpana Verma, Prameela Singh, Seema Singh and Pushpa Jatav.

With the blessings of almighty God, I am presenting this work.

Date: 22 January, 2007
