ACKNOWLEDGEMENT

I received incessant inspiration, learned counsel and meticulous guidance from my supervisor Dr. P. Thangaraj, Professor and Head, Department of Computer Science and Engineering, Bannari Amman Institute of Technology, Sathyamangalam. First of all, I owe a deep sense of gratitude to him.

I thank the Management and Principal Dr. K. Mayilsamy, Institute of Road and Transport Technology, Erode, for the support and co-operation.

During the course of this study, I obtained continuous encouragement from my Doctoral Committee Members, Dr. A. Wahi, Professor, Department of Information Technology, Bannari Amman Institute of Technology, Sathyamangalam and Dr. A. Saradha, Associate Professor and Head, Department of Computer Science and Engineering, Institute of Road and Transport Technology, Erode. I gratefully acknowledge the unabated help they offered.

I wish to extend immense gratefulness to my Parents Dr. V. Ramaswamy and Mrs. R. Sundarambal. But for their moral support, inspiration and constant encouragement, this work would not have been possible.

Acknowledgement is hereby recorded for the magnanimous support, precious suggestions and interest shown by my husband N. S. Nandakumar and my family who stood by me all the time in this scholastic journey.

My heartfelt thanks are due to all my colleagues and students of the Department of Computer Science and Master of Computer Applications for their unstinted help rendered.

KALAIVANI R
