First and foremost, I would like to express my most sincere gratitude to my Supervisor Prof. Renu Jain, School of Mathematics and Allied Sciences, Jiwaji University, Gwalior. I consider myself extremely fortunate that I was in such good hands.

Her valuable guidance helped me in all the time of research and writing of this thesis. I am grateful to her for the consistent support and encouragement I received throughout my research study and for her patience, motivation, enthusiasm, and immense knowledge. She made me understand all the mathematical concepts related to my research work. She helped me in editing and correcting mistakes that were made in writing this thesis. Here, it will not be proper, if I don’t mention Shri S.K. Jain who is husband of my supervisor. His morale-boosting, pampering, and sympathizing at tough times is something, I shall never be able to forget as long as I live.

I also express my deepest thanks to Prof. O.P. Mishra, School of Mathematics and Allied Sciences, Jiwaji University, Gwalior for his trust, cooperation and valuable suggestions in development of this work.

I would like to specially thanks to Mr. Ashish Johari, Lab Coordinator, School of Mathematics and Allied Sciences, Jiwaji University, Gwalior. He always extended his kind help to me for many official work related to my thesis work.

I express my deep sense of gratitude to my husband Dr. Vinod Kumar Jain, Assistant Professor, PDPM-IIITDM, Jabalpur without whom I would never have been able to achieve the desired goal. His presence kept my spirit high and saved me from getting into the worst of moods. He made me understand the concepts of machine learning. His valuable suggestions, moral support, useful criticism and unreserved cooperation enabled me to bring out this work in the present form.

I would also like to thank my in-laws and other family members for their sincere prayers, best wishes, support and patience throughout my studies. Special thanks to my mother-in-law
