LIST OF TABLES

1. Percentage of sample by categories.
2. Significance in terms of t for Parametric group of teachers.
3. Significance in terms of t for language teachers.
4. Significance in terms of t for science-subject teachers.
5. Significance in terms of t for social-subject teachers.
6. Significance in terms of t for male teachers.
7. Significance in terms of t for female teachers.
8. Significance in terms of t for experienced teachers.
9. Significance in terms of t for fresh teachers.
10. Result summary.

LIST OF DIAGRAM

Diagramatic representation of pre and post test effect.
## CONTENTS

Acknowledgments .......................................................... ...
Abbreviation and Symbols Used ......................................... ...
List of Tables and Diagram ............................................... ...

### Chapter 1 INTRODUCTION .................................................. 1-8

1.1 Problem and its significance ........................................ ...
1.2 Rationale of the study .............................................. ...
1.3 Statement of the problem ............................................ ...
1.4 Definition of terms used ........................................... ...
1.5 Delimitations of the study .......................................... ...
1.6 Assumptions ................................................................
1.7 Objectives of the study .............................................. ...
1.8 Hypotheses ................................................................

### Chapter 2 REVIEW OF SOME OF THE RELATED LITERATURE .... 9-24

2.1 Research studies conducted abroad ....................................
2.2 Research studies in India .............................................

### Chapter 3 DESIGN AND METHODOLOGY ......................... 25-29

3.1 Sample design ................................................................
3.2 Instrumentation .........................................................
3.3 Feedback sheet ........................................................
3.4 Reliability ................................................................
3.5 Validity ................................................................
3.6 Treatment of data .....................................................
3.7 Independent variable ...................................................
3.8 Dependent variable .....................................................
Chapter 4

PRESENTATION AND ANALYSIS OF THE DATA

4.1 Analysis of the data

4.2 Result summary

4.3 Diagramatic representation of Pre and Post test effect

Chapter 5

CONCLUSION AND SUGGESTION

5.1 A brief account of the study

5.2 Conclusion

5.3 Limitations

5.4 Suggestions for further research

5.5 Implications
