6.1 Distribution of Local Labour by Their Opinion about Difficulty in Finding Employment with Mean Score and Test of Significance
6.2 Sector-wise Classification of Distribution of Local Labour by their Opinion about Difficulty in Finding Employment
6.3 Model Summary of Initial and Final Regression for the Effect of Characteristics of Local Labour on Difficulty in Finding Employment Due to Huge Inflow of Migrant Labour
Result of ANOVA of Initial and Final Regression Models for the Effect of Characteristics of Local Labour on Difficulty in Finding Employment Due to Huge Inflow of Migrant Labour

Coefficient of Initial Regression Model for the Effect of Characteristics of Local Labour on Difficulty in Finding Employment Due to Huge Inflow of Migrant Labour

Coefficient of Final Regression Model for the Effect of Characteristics of Local Labour on Difficulty in Finding Employment Due to Huge Inflow of Migrant Labour

Distribution of local Labour by their opinion about their Inability to Access Employers with Mean Score and Test of Significance

Distribution of Local Labour by their opinion about their Inability to Access Employers with Mean Score and Test of Significance

Model Summary of Initial and Final Regression for the effect of Characteristics of local Labour on Inability to access employers due to huge inflow of migrant labourers

Result of ANOVA of Initial and Final Regression Models for the effect of characteristics of local Labour on Inability to Access Employers due to huge inflow of Migrant Labourers

Coefficient of initial Regression Model for the effect of characteristics of Local Labour on Inability to Access Employers due to huge inflow of Migrant Labourers

Coefficient of final Regression Model for the effect of characteristics of Local Labour on Inability to Access Employers due to huge inflow of Migrant Labour

Distribution of Local Labour by their opinion about their Inability to get Adequate Wages with Mean score and Test of significance
Distribution of Local Labour based on Adequate Wages with Mean Score and Test of Significance 221

Model Summary of Initial and Final Regression for the Effect of Characteristics of Local Labour on Inability to get Adequate Wages Due to Huge Inflow of Migrant Labourers 222

Result of ANOVA of Initial and Final Regression Models for the Effect of Characteristics of Local Labour on Inability to Get Adequate Wages Due To Huge Inflow Of Migrant Labour 223

Coefficient of Initial Regression Model for the Effect of Characteristics of Local Labour on Inability to get Adequate Wages Due To Huge Inflow of Migrant Labour 224

Coefficient of Final Regression Model for the Effect of Characteristics of Local Labour on Inability to get Adequate Wages Due to Huge Inflow of Migrant Labour 225

Distribution of Local Labour by their Opinion about their Pressure to Move to Alternative Function with Mean Score and Test of Significance 228

Distribution of local Labour by their opinion about their pressure to move to alternative function by sector wise with mean score and test of significance 230

Model Summary of Regression for the effect of characteristics of local Labour on pressure to move to alternative function due to migrant labour 231

Result of ANOVA of initial and final regression models for the effect of characteristics of local Labour on pressure to move to alternative function due to huge inflow of migrant labour 231

Coefficient of initial regression model for the effect of characteristics of local Labour on pressure to move to alternative function due to huge inflow of migrant labour 232
Coeficient of Final Regression Model for the Effect of Characteristics of Local Labour on Pressure to Move to Alternative Function Due to Huge Inflow of Migrant Labour 233

Distribution of Local Labors by their Opinion about Their Pressure to Leave the State with Mean Score and Test of Significance 236

Distribution of Local Labour by their Opinion about their Pressure to Leave the State by Sector Wise with Mean Score and Test of Significance 237

Model Summary of Initial and Final Regression for the Effect of Characteristics of Local Labour on Pressure to Leave the State Due to Huge Inflow of Migrant Labour 238

Result of ANOVA of Initial and Final Regression Models For the Effect of Characteristics of Local Labour on Pressure to Leave the State Due to Huge Inflow of Migrant Labour 238

Coefficient of Initial Regression Model for the Effect of Characteristics of Local Labour on Pressure to Leave the State Due to Huge Inflow of Migrant Labour 239

Profile of Employers 243

Total number of Migrant and local labour working with sample employers 243

Mean percentage of migrant labour and local labourer to total Labour employed by sample employers by region and sector 245

Benefits Received by Employing Migrant Labour 247

Model Summary of initial and final Regression for the effect of extent of migrant labour support to Industry 248
6.35 Result of ANOVA of initial and final regression models for the effect of extent of migrant labour support to Industry 249
6.36 Coefficient of initial regression model for the effect of extent of migrant labour support to Industry 249
6.37 Coefficient of final regression model for the effect of extent of migrant labour support to Industry 250
6.38 Reasons for huge inflow of migrant labour to Kerala 251
6.39 Reasons for huge inflow of migrant labour to Kerala by sector 252
6.40 Problems Faced By Employers While Employing Migrant Labour 253
