List of Tables

Table 1
Comparison of carnivorous plant diversity (World/India/NE India).

Table 3.1
List of insectivorous plants with place of collection and GPS reading.

Table 3.2
List of insectivorous plants with accession numbers.

Table 3.3
Details of primers used for the study.

Table 3.4
Genbank accessions of nuclear, chloroplast and mitochondrial DNA markers for the carnivorous plant samples undertaken in the study from Meghalaya, India.

Table 3.5
List of matK and ITS GenBank accessions for representative species belonging to Nepenthaceae, Droseraceae, Sarraceniaceae and Roridulaceae carnivorous plant families used in this study along with geographical distribution.

Table 3.6
Sequence information of molecular markers used in this study.

Table 4.1
List of rbcL and ITS GenBank accessions for representative species belonging to Nepenthaceae, Droseraceae and Sarraceniaceae carnivorous plant families used in this study along with geographical distribution.
Table 4.2
Sequence information of molecular markers used in this study.

Table 4.3
Maximum Likelihood fits of 24 different nucleotide substitution models.

Table 5.1
List of matK, rbcL, trn L-F and coxl GenBank accessions for representative species belonging to the family Lentibulariaceae used in this study along with geographical distribution.

Table 5.2
Sequence information of molecular markers used in this study.
