ACKNOWLEDGEMENT

This thesis is the end of my journey in obtaining Ph.D. I have not travelled vacuum in this journey. This thesis is a culmination of many years of effort and kept on track and been seen through to complication with support and encouragement of many people, my parents, my well-wishers, my friends, fellow lab mates and various institutions. At the end of my thesis work, it is a pleasant task to express my thanks to all those who contributed in many ways to make a success of this study and made it an unforgettable experience for me.

I have a great pleasure in expressing my profound unwavering gratitude to my esteemed teacher and reverend supervisor Dr. S.C. Naithani, Professor, School of Life Sciences, Pt. Ravishankar Shukla University, Raipur, Chhattisgarh, India, for his timely supervision, perpetual patience, immense knowledge, scholarly advice and healthy criticism spanning my entire working tenure. He tried his best to devote sufficient time from his busy schedule to make it possible for me to accomplish my project. His guidance helped me in all time of my research and writing of this thesis.

A big measure of special and sincere thanks to Dr. Keshav Kant Sahu, Associate Professor, School of Studies in Biotechnology, Pt. Ravishankar Shukla University, Raipur, Chhattisgarh, India, for instituting excellent suggestions, his understanding, support, competent assistance in performing my whole project work and constant encouragement throughout this endeavour, which would have been of course far more difficult without his sincere effort. I am grateful to him for his perceptive and miraculous chemistry work. Manley without his reinforcement it would become unfeasible.

I owe my deep sense of gratitude to former and present Head of Department, School of Life Sciences, PRSU, Prof. V. Rai, Prof. Atanu Kumar Pati and Prof. A.K. Gupta for extending their support for providing me the necessary laboratory facilities, instrumental facilities, advice and help. Besides these, the needful help provided by them cannot be executed by others.

I render my sincere obligations to Mrs. Ranjana Naithani for her timely advices and supports at all the time during my work. Her mathematical aptitude was helpful during the calculations.

My difficult journey of Ph.D was so easy because of my Lab Mates. I wish to acknowledge the kind cooperation, help and guidance rendered by everyone. I am extremely obliged to Mr. Ch. Srinivas Rao, Dr. Avinash Soni, Dr. Suruchi Parkhey, Dr. (Mrs) Vinita Thomas, Dr. (Mrs) Jyoti Bakshi, for their unconditional love, care and much encouragement during my long journey from date of pick out of my feet till today. Mr. Alok Kumar Sahu and Mr. Balram Sahu are two valuable gift for me at the time of my completion of this difficult journey. I express my earnest thanks to these two also, who are my two eyes to prepare the thesis.
I am extremely obliged to the supporting staff of school of studies in Life sciences, Pt. RaviShankar Shukla University, Raipur who were very generous in providing me all sorts of help whenever I needed for completion of my research activities.

I am gratefully acknowledge the fellowship granted by University Grant Commission, Delhi, India.

I express my earnest gratitude to Dr. Hemlata Borker (my sweet didi), Dr. Ashok Pradhan (my lovely Bhaiya), Mr. S. Pradhan and Mr. M. Pradhan and Staff of Happiness for their support during my research work.

My genuine obliged to Dr. Dipti Kanta Padhan, Mr Abadhesh Ranjan Naik, Ms Kiran, Dr. Kanchan for their assistance and honest keep up for the fulfillment of my dream, which came to my penniless eyes many years ago.

All my way architectures starting from my nursery to a scholar of Ph.D. are responsible for fulfillment of my thesis successfully. I am just an image who have no life but yours blessing hand over me life and strength.

I am highly indebted to Ms Pini and my Betu AAdi (Aaryaman) who spends a lot of time for me and support me at the time of my thesis writing. As we know all thinks will be good if it end with good.

I would like to thank all people who have helped and inspired me during my doctoral journey. I wish to apologize for omission of the names of persons who had helped me in one way or other.

Last but not least how can I forget my family members and parents especially, who blessed me a beautiful life like almighty god devoid of them I have no existence atoll. I thanks from the deep of my heart to my Husband who stand for me at any time I required his help. My mother is the back bone of my all success. My father is more than a friend who makes my life successful in all fields. This thesis no doughtly has done by me but behind it the producer and director of this work is only and only my father. The word may not be appropriate but for me my father is a super natural power, thou the Divine mother seeking the holy dust of your feet.
