CONTENTS AT A GLANCE

Historical Background

CHAPTER 1  Finsler manifold

CHAPTER 2  Torse-forming curvature inheritance in Finsler space

CHAPTER 3  Decomposability of projective curvature tensor in projectively recurrent Finsler space \((WR - F_n)\)

CHAPTER 4  Study of torse-forming curvature collineation in Finsler spaces

CHAPTER 5  Certain types of non-affine motion in projectively symmetric Finsler space \((PS - F_n)\)

CHAPTER 6  Decomposability of curvature tensor in second order recurrent conformal Finsler space \((R - \bar{F}_n^*)\).

CHAPTER 7  Torse-forming Projective N-curvature inheritance in \(NP - F_n\)

\((x)\)
LIST OF PUBLICATIONS

3. Study of torse-forming curvature collineation in Finsler spaces. (Communicated)

4. Certain types of non-affine motion in projectively symmetric Finsler space \( (PS - F_n) \). (Communicated)

5. Decomposability of projective curvature tensor in projectively recurrent Finsler space \( (WR - F_n) \). (Communicated)
Table of Contents

Historical Background 1

Chapter 1. Finsler manifold

1. Introduction 8
2. The metric tensor 10
3. Euclidean connection of Cartan 12
4. The connection of Berwald 14
5. Commutation formulae and the curvature tensors 16
6. Projective transformation 23
7. Special Finsler manifolds 29
8. The theory of Lie differentiation 33
9. Conformal transformation 37
10. Curvature collineation 40

Chapter 2. Torsion-forming curvature inheritance in Finsler space

1. Introduction 41
2. Preliminaries 42
3. Torsion-forming curvature inheritance 43

(xii)
Chapter 3. Decomposability of projective curvature tensor in projectively recurrent Finsler space \((WR – F_n)\)

1. Introduction 50
2. Decomposition of Projective curvature Tensor in projectively recurrent Finsler space \((WR – F_n)\) 54

Chapter 4. Study of torse-forming curvature collineation in Finsler spaces

1. Introduction 60
2. Torse-forming curvature collineation 61
3. Projective torse-forming curvature collineation 62

Chapter 5. Certain types of non-affine motion in projectively symmetric Finsler space \((PS – F_n)\)

1. Introduction 65
2. Contra non-affine motion in a \(WR – F_n\) 68
3. Concurrent non-affine motion in a \(PS – F_n\) 72
4. Special concircular non-affine motion in a \(PS – F_n\) 74
5. Torse-forming non-affine motion in a \(PS – F_n\) 77

(xiii)
Chapter 6. Decomposability of curvature
tensor in second order recurrent
conformal Finsler space \((R - F_n^*)\)

1. Introduction 81
2. Decomposition of curvature tensor in second order 83
   projectively recurrent conformal Finsler space \((R - F_n^*)\)

Chapter 7. Torse-forming projective
\(N\)-curvature inheritance in
\(NP - F_n\)

1. Introduction 89
2. Torse-forming projective \(N\)-curvature inheritance in 90
   \(NP - F_n\)
