Acknowledgement

The completion of this thesis would not have been possible without the contributions of many individuals and Organizations/Universities who unreservedly gave their time, knowledge, moral and financial support.

At the very beginning, I must to express my sincere thanks of gratitude to Prof. A. K. Das, Botany Department, Rajiv Gandhi University, who took and keep taking the pain of guiding me as supervisor through the entire course of research work with untiring effort, valuable guidance, constructive criticisms with great patience, without which it would not have been possible for me to complete this work. I feel fortunate to work under the supervision of such a learned fellow. His guidelines were extremely useful for the successful completion of my work.

The line of acknowledgement goes to Dr. R. C. Sundriyal, Scientist-F & Group Head (SED& EAM), GB Pant Institute of Himalayan Environment and Development, Kosi-Katarmal, Almora, Uttrakhand, who expressed to undertake me as his research scholar and consented to act as co-supervisor for this doctoral research program. Dr. L.M.S. Palni, Director (Retd.), GBPIHED, Kosi-Katarmal, Almora, deserves special thanks for providing fund and necessary facilities to undertake the current research problem.

Current piece of work is a partial outcome of the project entitled “Shifting Agriculture: Issues and option with focus on adaptive intervention to make it ecologically, economically and socially viable” an In-House funded project of GBPIHED, MoEF, GOI, which was designed by not other than Dr. Prasanna K. Samal, Scientist-F & Incharge GBPIHED, North East Unit, Vivek Vihar, Itanagar-791113, Arunachal Pradesh, and hence Dr. Samal deserved special thanks.

I wish to express my gratitude to HOD, Dept. of Botany, Rajiv Gandhi University for providing me laboratory facility and for his moral support. Moreover, I also thank all the faculty members of Botany Department, Rajiv Gandhi University, for their valuable suggestions and all time encouragement during the entire period of work.

I am also sincerely thankful to Dr. D.K. Hore, Principal scientist, National Bureau of Plant Genetic Resources, Regional Station, Barapani, Meghalaya; Dr. I.S.
Bisht, Dr. R.K. Khetrapal both from NBPG, New Delhi for allowing me to deposit the crop genetic resources collected from Siang districts during the surveyed period. I also would like to offer my thanks to the Librarians of ICAR for NEH Region, Barapani, Meghalaya: NBPG, New Delhi; Rajiv Gandhi University, Rono Hill; NEC, Shillong; IARI, Pusa Campus, New Delhi who kindly allowed me to access their library during the library consultations for preparing synopsis for this piece of monograph.

I would also like to express my gratitude to my beloved father late Chandi Mili and Mom Mrs. Rasawati Mili, who always wanted me to see in a happy state of affairs irrespective of my academic performances and jobs whatsoever. My beloved Attan Ba-Mr. Moneswar Mili, the ultimate source of inspiration in every step of my life so far who remains always in various capacities such as friend, philosopher, and guide for me and so it is the time to say a big thank you to Attan Ba. I must thanks to all my family members who bear entire domestic liabilities in my absence at my native.

I wish to thanks my all colleague at GBPIHED, especially Mr. Mihin Dollo and Dr. L. Jitendra Singh, the two senior scholars behind the scene who took lot of pain in teaching me the preface of R&D challenges for both laboratory experimentations and on farm quantifications of stipulated research problems. Mr. P. Sen, Durlov Ghosh, Karthik, Doi Tarak, Kenjum Bagra, Dagyom. Kato, Deba Pasi, D. Bora, Nangki, Tamang, Baburam, Madan, Paul Da etc. who supported me morally during synopsis preparation. I am short of words to express my gratitude to them; all I can say is thank you.

At last but not the least, I am grateful to all the villagers of Rumgong, Jomo, Mopung, Molom and Yosing of West Siang District, Pangin, Koreng, Dosing, Riga, Rengo under East Siang district, Damro, Sibuk, Sikko, Millang, and Panggo of Upper Siang district for their kind hospitality and cooperation extended me during the field survey. Thanks are due to the authority of NIF-India, Ahmedabad for their moral support towards completion of this thesis. Bhupen, Bhasker and Pojul (all are from IIT Guwahati) deserved thanks for boosting me in writing the thesis. Rest all well-wishers who are directly or indirectly involved in the completion of this work.

[Rajiv Mili, MPhil]
