CONTENTS

Acknowledgment

Chapter-1 Introduction 1 - 36

- Background of the Study
- Statement of the Problem
- Psychological well-being: Concept and Definitions
- Factors of Psychological well-being
- Spirituality: Concept and Definitions
- Dimensions of spirituality
- Optimism: Concept and Definitions
- Dispositional Optimism
- Relationship between Spirituality, Optimism, and Resilience
- Resilience: Concept and Definitions
- Sources of Resilience in children
- Sources of Resilience
- Significance of the study
- Objectives
- Hypothesis
- Conceptual and Operational Definitions of Variables
- Metropolitan and Nonmetropolitan cities

Chapter-2 Review of Relevant Literature 37-59

- Studies related to Psychological well-being
• Studies related to Spirituality
• Studies related to Optimism
• Studies related to Resilience
• Studies related to psychological well-being and Optimism
• Studies related to Psychological well-being and Spirituality
• Studies related to Psychological well-being, Optimism, and Resilience
• Studies related to Spirituality and resilience
• Conceptual Framework

Chapter-3 Methodology 60-66

• Research Design
• Participants
• Breakup of the Participants
• Inclusion criteria
• Exclusion Criteria
• Psychological well-being scale
• Spirituality Questionnaire
• Optimism Scale (LOT)
• Resilience Scale
• Procedure
• Statistical analysis

Chapter-4 Results and Discussion 67-85

Chapter-5 Conclusion, Suggestions, and Implications... 86-90
• Conclusions
• Implications
• Contribution to knowledge
• Future research suggestions
• Limitations

References

Appendices

Appendix-I: Psychological well-being scale
Appendix-II: Spirituality Scale
Appendix-III: Optimism Scale
Appendix-IV: Resilience Scale
