LIST OF TABLES

**Table 4.1:** Showing descriptive statistic of spirituality, optimism, resilience, and psychological well-being among adolescents studying in Metropolitan city.

**Table 4.2:** Showing descriptive statistic of study variables spirituality, optimism, resilience, and psychological well-being of adolescents studying in Non-Metropolitan city.

**Table 4.3:** Showing the correlation of the predictor variables (Spirituality, Optimism, and Resilience) with the criterion variable (Psychological well-being) of adolescents studying in Metropolitan city.

**Table 4.4:** Showing the correlation of the predictor variables (Spirituality, Optimism, and Resilience) with the criterion variable (Psychological well-being) among male adolescents studying in Metropolitan city.

**Table 4.5:** Showing the correlation of the predictor variables (Spirituality, Optimism, and Resilience) with the criterion variable (Psychological well-being) among female adolescents studying in Metropolitan city.

**Table 4.6:** Showing the correlation of the predictor variables (Spirituality, Optimism, and Resilience) with the criterion variable (Psychological well-being) among adolescents studying in Non-Metropolitan city.

**Table 4.7:** Showing the correlation of the predictor variables (Spirituality, Optimism, and Resilience) with the criterion variable (Psychological well-being) among male adolescents in Non-Metropolitan city.

**Table 4.8:** Showing the correlation of the predictor variables (Spirituality, Optimism, and Resilience) with the criterion variable (Psychological well-being) among female adolescents studying in Non-Metropolitan city.

**Table 4.9:** Showing summary of the robustness check among adolescents studying in Metropolitan city.

**Table 4.10:** Showing summary of the robustness check among adolescents studying in Non-metropolitan city.
Table 4.11: Showing summary of stepwise Multiple Linear Regression Analysis for variables predicting Psychological well-being among adolescents studying in Metropolitan city.

Table 4.12: Showing the result of the stepwise multiple regression analysis for male adolescents studying in Metropolitan city.

Table 4.13: Showing the result of the stepwise multiple regression analysis for female adolescents studying at Metropolitan city.

Table 4.14: Showing summary of Stepwise Multiple Linear Regression Analysis for variables predicting Psychological well-being among adolescents studying in Non-metropolitan city.

Table 4.15: Showing the result of the stepwise multiple regression analysis for male adolescents studying in Non-Metropolitan city.

Table 4.16: Showing the result of the Stepwise multiple regression analysis for female adolescents studying in Non-metropolitan city.
