List of Tables

Table No. 1. Meteorological data of Durg district in the year 2012

Table No. 2. Meteorological data of Durg district in the year 2013

Table No. 3. Meteorological data of Durg district in the year 2014

Table No. 4. Meteorological data of Durg district in the year 2015

Table No. 5. Meteorological data of Raipur district in the year 2012

Table No. 6. Meteorological data of Raipur district in the year 2013

Table No. 7. Meteorological data of Raipur district in the year 2014

Table No. 8. Meteorological data of Raipur district in the year 2015

Table No. 9. Series of dilutions of glucose to plot a standard curve

Table No. 10. Coarse texture (percentage) of four study zones in ten sites of Durg and Raipur district, during the year 2012-2015

Table No. 11. Water Holding Capacity (percentage) of four study zones in ten sites of Durg and Raipur district, during the year 2012-2015

Table No. 12. Organic matter CaCO$_3$ (kg/ha) of four study zones in ten sites of Durg and Raipur district, during the year 2012-2015

Table No. 13. Soluble Salt (EC) (dS/m) of four study zones in ten sites of Durg and Raipur district, during the year 2012-2015
Table No. 14. Soil Analysis pH (1:5 ratios) of four study zones in ten sites of Durg and Raipur district, during the year 2012-2015

Table No. 15. Occurrence of plants from 29 families in 4 studied Zone I Bhilai Industrial Area, Zone II Bhilai Steel Plant Area, Zone III Chunkatta Bhilai Area of district Durg and Zone IV Botanical garden for control, Govt. NPG College of science, Raipur, district Raipur, during the year 2012-15

Table No. 16. %frequency, density, abundance, relative frequency, relative density, Basal area, relative Dominance and ivi of plants species found in Zone I Bhilai Industrial Area of district Durg, during the year 2012-15

Table No. 17. %frequency, density, abundance, relative frequency, relative density, Basal area, relative Dominance and ivi of plants species found in Zone II Bhilai Steel Plant Area of district Durg, during the year 2012-15

Table No. 18. %frequency, density, abundance, relative frequency, relative density, Basal area, relative Dominance and ivi of plants species found in Zone III Chunkatta Bhilai Area of district Durg, during the year 2012-15

Table No. 19. %frequency, density, abundance, relative frequency, relative density, Basal area, relative Dominance and ivi of plants species found in Zone IV Botanical Garden for control, NPG College of science, Raipur of district Raipur, during the year 2012-15

Table No. 20. No. of Genus and Species in each family of study zone during the year 2012 to 2015

Table No. 21. Phytostatistical study of 4-study zone, during the year 2012-15
Table No. 22. \( r/p \) ratio (cm) of plant – *Cassia tora* L. in different concentration of soil solution from Zone I Bhilai Industrial Area, of district Durg, during the year 2012-15

Table No. 23. \( r/p \) ratio (cm) of plant – *Cassia tora* L. in different concentration of soil solution from Zone II Bhilai Steel Plant Area of district Durg, during the year 2012-15

Table No. 24. \( r/p \) ratio (cm) of plant – *Cassia tora* L. in different concentration of soil solution from Zone III Chunkatta Bhilai Area of district Durg, during the year 2012-15

Table No. 25. \( r/p \) ratio (cm) of plant – *Cassia tora* L. in different concentration of soil solution from Zone IV Botanical Garden for control, Govt. NPG College of Science, Raipur, of district Raipur, during the year 2012-15

Table No. 26. \( r/p \) ratio (cm) of plant – *Cassia tora* L. in mixed soil of 3 zones Zone I Bhilai Industrial Area, Zone II Bhilai Steel Plant Area, Zone III Chunkatta Bhilai Area of district Durg with Botanical Garden soil, Govt. NPG College of Science, Raipur, of district Raipur, during the year 2012-15

Table No. 27. \( r/p \) ratio (cm) of plant – *Laucaena leucocephala* L. in different concentration of soil solution from Zone I Bhilai Industrial Area, of district Durg, during the year 2012-15

Table No. 28. \( r/p \) ratio (cm) of plant – *Laucaena leucocephala* L. in different concentration of soil solution from Zone II Bhilai Steel Plant Area of district Durg, during the year 2012-15
Table No. 29. r/p ratio (cm) of plant – *Laucaena leucocephala* L. in different concentration of soil solution from Zone III Chunkatta Bhilai Area of district Durg, during the year 2012-15

Table No. 30. r/p ratio (cm) of plant – *Laucaena leucocephala* L. in different concentration of soil solution from Zone IV Botanical Garden for control, Govt. NPG College of Science, Raipur, of district Raipur, during the year 2012-15

Table No. 31. r/p ratio (cm) of plant – *Laucaena leucocephala* L. in mixed soil of 3 zones Zone I Bhilai Industrial Area, Zone II Bhilai Steel Plant Area, Zone III Chunkatta Bhilai Area of district Durg with Botanical Garden soil, Govt. NPG College of Science, Raipur, of district Raipur, during the year 2012-15

Table No. 32. Total amino acids of *Cassia tora* L. plant from 4 study zones in soil solution of different concentration, during the year 2012-15

Table No. 33. Amino acids *Laucaena leucocephala* L. plant from 4 study zones in soil solution of different concentration, during the year 2012-15

Table No. 34. Table for standard curve (known sample of glucose)

Table No. 35. Carbohydrate in *Cassia tora* L. plant from 4 study zones in soil solution of different concentration, during the year 2012-15

Table No. 36. Carbohydrate in *Laucaena leucocephala* L. plant from 4 study zones in soil solution of different concentration, during the year 2012-15

Table No. 37. Chlorophyll in 663 nm, chl a (*Cassia tora* L.) plant from 4 study zones in soil solution of different concentration, during the year 2012-15
Table No. 48. Chlorophyll 663 nm, chl a (*Laucaena leucocephala* L.) plant from 4 study zones in soil solution of different concentration, during the year 2012-15

Table No. 39. Chlorophyll 640 nm, chl b (*Cassia tora* L.) plant from 4 study zones in soil solution of different concentration, during the year 2012-15

Table No. 40. Chlorophyll 640 nm, chl b (*Laucaena leucocephala* L.) plant from 4 study zones in soil solution of different concentration, during the year 2012-15
