**List of Tables**

**Table 1:** Detailed geographical characteristics of 8 sampling stations (S1- S8) in Indian Sundarbans

**Table 2:** Annual pooled mean (n=100) and standard deviation (M±SD) values of physicochemical parameters of surface water at 8 sampling stations (S1-S8) in Indian Sundarbans during March 2012 to December 2014

**Table 3:** Spatial and seasonal mean (n=100) and standard deviation (M±SD) values of physicochemical parameters of surface water at 8 sampling stations (S1-S8) in Indian Sundarbans during March 2012 to December 2014

**Table 4:** ANOVA results showing spatial and seasonal variations of physicochemical parameters of surface water in Indian Sundarbans

**Table 5:** Annual pooled mean (n=100) and standard deviation (M±SD) values of sediment quality parameters at 8 sampling stations (S1-S8) in Indian Sundarbans during March 2012 to December 2014

**Table 6:** Spatial and seasonal mean (n=100) and standard deviation (M±SD) values of sediment quality parameters at 8 sampling stations (S1-S8) in Indian Sundarbans during March 2012 to December 2014

**Table 7:** ANOVA results showing spatial and seasonal variations of sediment quality parameters in Indian Sundarbans

**Table 8:** Major activities influencing the organic carbon and nutrients pool in Indian Sundarbans (*, ** and *** indicate low, medium and high scale respectively)

**Table 9:** Annual pooled mean (n=100) and standard deviation (M±SD) values of sediment texture (% of sand, silt and clay) at 8 sampling stations (S1-S8) in Indian Sundarbans during March 2012 to December 2014
**Table 10:** Density of mangrove species (mean of 15 plots/station) in the study area; Figures within parenthesis indicate the relative abundance of each species for 8 sampling stations (S1-S8) in Indian Sundarbans

**Table 11:** Spatial and seasonal variations in Stem, Branch, Leaf and Above-Ground Biomass (AGB) thm⁻¹ of five mangrove species in Indian Sundarbans during 2012

**Table 12:** Spatial and seasonal variations in Stem, Branch, Leaf and Above-Ground Biomass (AGB) thm⁻¹ of five mangrove species in Indian Sundarbans during 2013

**Table 13:** Spatial and seasonal variations in Stem, Branch, Leaf and Above-Ground Biomass (AGB) thm⁻¹ of five mangrove species in Indian Sundarbans during 2014

**Table 14:** ANOVA results showing spatial and seasonal variations in Stem, Branch, Leaf and Above-Ground Biomass (AGB) of five mangrove species in Indian Sundarbans

**Table 15:** Correlations between physicochemical parameters of surface water and Above-Ground Biomass (AGB) of five mangrove species in Indian Sundarbans

**Table 16:** Correlations between sediment quality parameters and Above-Ground Biomass (AGB) of five mangrove species in Indian Sundarbans
List of Figures

**Figure 1a:** Location of 8 sampling stations (S1- S8) in Indian Sundarbans showing 2 distinct sectors based on salinity regime and anthropogenic pressure

**Figure 1b:** Map showing the intricate river network and position of the multifarious industries on the bank of Hugli River Estuary

**Figure 2a-h:** Images of 8 sampling stations (S1- S8) in Indian Sundarbans

**Figure 3:** Spatial and seasonal variations of surface water temperature (annual mean and standard deviations are expressed °C) in Indian Sundarbans

**Figure 4:** Spatial and seasonal variations of surface water salinity (annual mean and standard deviations are given) in Indian Sundarbans

**Figure 5:** Spatial and seasonal variations of surface water pH (annual mean and standard deviations are given) in Indian Sundarbans

**Figure 6:** Spatial and seasonal variations of surface water dissolved oxygen (annual mean and standard deviations are expressed mg l⁻¹) in Indian Sundarbans

**Figure 7:** Spatial and seasonal variations of surface water nitrate-nitrogen (annual mean and standard deviations are expressed µ mol l⁻¹) in Indian Sundarbans

**Figure 8:** Spatial and seasonal variations of surface water phosphate-phosphorus (annual mean and standard deviations are expressed µ mol l⁻¹) in Indian Sundarbans

**Figure 9:** Spatial and seasonal variations of surface water silicate (annual mean and standard deviations are expressed µ mol l⁻¹) in Indian Sundarbans

**Figure 10:** Spatial and seasonal variations of salinity (annual mean and standard deviations are given) of sediment in Indian Sundarbans

**Figure 11:** Spatial and seasonal variations of pH (annual mean and standard deviations are given) of sediment in Indian Sundarbans
**Figure 12:** Spatial and seasonal variations of organic carbon (annual mean and standard deviations are expressed %) content of sediment in Indian Sundarbans

**Figure 13:** Spatial and seasonal variations of nitrate-nitrogen (annual mean and standard deviations are expressed µg g⁻¹) content of sediment in Indian Sundarbans

**Figure 14:** Spatial and seasonal variations of phosphate-phosphorus (annual mean and standard deviations are expressed µg g⁻¹) content of sediment in Indian Sundarbans

**Figure 15:** Spatial and seasonal variations of potassium (annual mean and standard deviations are expressed µg g⁻¹) content of sediment in Indian Sundarbans

**Figure 16:** Spatial variation of sand, silt and clay (annual mean and standard deviations are expressed %) content of sediment in Indian Sundarbans

**Figure 17A:** Spatial variation of Stem Biomass (annual mean and standard deviations are expressed tha⁻¹) of five mangrove species in Indian Sundarbans

**Figure 17B:** Spatial variation of Branch Biomass (annual mean and standard deviations are expressed tha⁻¹) of five mangrove species in Indian Sundarbans

**Figure 17C:** Spatial variation of Leaf Biomass (annual mean and standard deviations are expressed tha⁻¹) of five mangrove species in Indian Sundarbans

**Figure 17D:** Spatial variation of Above-Ground Biomass (AGB) (annual mean and standard deviations are expressed tha⁻¹) of five mangrove species in Indian Sundarbans

**Figure 18:** Regression equations showing the relationships between Above-Ground Biomass (AGB) and Stem, Branch as well as Leaf Biomass of *Avicennia marina* in western (A) and central sector (B) of Indian Sundarbans

**Figure 19:** Regression equations showing the relationships between Above-Ground Biomass (AGB) and Stem, Branch as well as Leaf Biomass of *Avicennia officinalis* in western (A) and central sector (B) of Indian Sundarbans
**Figure 20:** Regression equations showing the relationships between Above-Ground Biomass (AGB) and Stem, Branch as well as Leaf Biomass of *Avicennia alba* in western (A) and central sector (B) of Indian Sundarbans

**Figure 21:** Regression equations showing the relationships between Above-Ground Biomass (AGB) and Stem, Branch as well as Leaf Biomass of *Sonneratia apetala* in western (A) and central sector (B) of Indian Sundarbans

**Figure 22:** Regression equations showing the relationships between Above-Ground Biomass (AGB) and Stem, Branch as well as Leaf Biomass of *Excoecaria agallocha* in western (A) and central sector (B) of Indian Sundarbans

**Figure 23:** Regression equations showing the relationships between DBH (Diameter at Breast Height) and Stem, Branch as well as Leaf Biomass of *Avicennia marina* in western (A) and central sector (B) of Indian Sundarbans

**Figure 24:** Regression equations showing the relationships between DBH (Diameter at Breast Height) and Stem, Branch as well as Leaf Biomass of *Avicennia officinalis* in western (A) and central sector (B) of Indian Sundarbans

**Figure 25:** Regression equations showing the relationships between DBH (Diameter at Breast Height) and Stem, Branch as well as Leaf Biomass of *Avicennia alba* in western (A) and central sector (B) of Indian Sundarbans

**Figure 26:** Regression equations showing the relationships between DBH (Diameter at Breast Height) and Stem, Branch as well as Leaf Biomass of *Sonneratia apetala* in western (A) and central sector (B) of Indian Sundarbans

**Figure 27:** Regression equations showing the relationships between DBH (Diameter at Breast Height) and Stem, Branch as well as Leaf Biomass of *Excoecaria agallocha* in western (A) and central sector (B) of Indian Sundarbans

**Figure 28:** Annual increment in Above-Ground Biomass (AGB) (tha\(^{-1}\)yr\(^{-1}\)) of five mangrove Species in Indian Sundarbans
