ACKNOWLEDGEMENTS

Like any prolonged journey in the academic and scientific pursuits, mine too has accumulated a lot of debts which can not be paid only by virtue of my insufficient words.

First and foremost, I owe my profound gratitude, indebtedness and sincere thanks to my Supervisor Prof. Satyendra K. Garg, Head, Department of Microbiology, Dr. Ram Manohar Lohia Avadh University, Faizabad for not only his able guidance but also for inculcating in me the research aptitude and uninterrupted encouragement; it is by virtue of his encyclopedic knowledge. I am grateful to him for every lesson which he taught me everyday living sincere. I will cherish the time spend with him through the rest of my life.

It is my great privilege to pay my regards and sincere thanks to my Co-supervisors Dr. R. S. Kanaujia and Dr. C. S. Singh, Readers, Department of Botany, K. S. S. P. G. College, Ayodhya, Faizabad, for guidance with their crusader like zeal, relentless incommensurable standards, unmatchable patience and deep interest in their students. Their patronage incessant, moral support and affectionate behavior has generated an atmosphere conducive to learning and has left an indelible mark on me throughout the course of this task.

I am thankful to Dr. H.P. Shukla, Head, Department of Pathology, Chandra Shekhar Azad University of Agriculture and Technology, Kanpur, for his help to obtain the culture of Pleurotus florida.

I would like to thank Dr. D. N. Kamra, Principal Scientist Indian Veterinary Research Institute, Izatnagar, for his help and critical comments at the time of need during the tenure of my research.

I feel pleasure in expressing thanks to Dr. D. R. Modi, Reader, Dept. of Biotechnology, D. D. U. Gorakhpur University, Gorakhpur for his timely encouragement and suggestions during this work.

My candid regards are due to Mr. Shailendra Kumar, Lecturer, Department of Microbiology, Dr. Ram Manohar Lohia Avadh University, Faizabad, for his perfect suggestions, critical and constructive advice with cross examination without which this treatise could not have possibly come
to its fruition and worthy representations. My special regards are also due to his parents and brothers Vijendra, Surendra and Ramendra for moral support.

My special thanks are also due to Mr. Vinayak Ram Tripathi, Lecturer, Department of Microbiology, Dr. Ram Manohar Lohia Avadh University, Faizabad, to expand a new zeal.

My heart felt thanks are extended to Mr. Jai Prakash Quality Controller SAF, Yeast Ltd., Hardoi, UP, for his help rendered towards providing various chemicals required in this study.

I am also grateful to Mr. Ram Gati (VDO), Mr. Shyam Lal (VDO), Mr. Vasudev and Mr. Radheshyam, inspector, customs for providing not only friendly and homely atmosphere but also for immense help and cooperation like guardian during this study.

I wish to express my special thanks to Ram Charitra, Harish Chandra and Siyaram for their helps during depression, stress and satisfaction at the moments of exhilaration under this task.

I feel pleasure to acknowledge and share my success with my friends Girish Chandra, Ram Autar, Sheo Charan, Rajesh and Shiv Prasad for their kindness, consistent support and understanding during my study time.

I wish to express my deep sentiments, regards and affection to my Brother in laws Mr. R. A. Dhiman (ABSA) Education, and my only sister Sheokumari, brother Satyanarayan with Devendra for their unflinching support during this course.

I find myself lacking in adequate words to express to my parents for their gratuitous help and patience for higher studies.

The financial assistance by Department of Biotechnology (DBT), New Delhi, India is gratefully acknowledged.

I am also thankful to Mr. K.C. Pandey, typist for his excellent typing, he did for this thesis.

At last but not the least, I acknowledge with deep appreciation, indispensable aid and encouragement by my wife Rani, who has tolerated the occupational agonies and my absence during study with her extraordinary patience.

Ram Naraian
