LIST OF TABLES

6.1 Brain MRI datasets for evaluation of the proposed method. . . . . . . . . . . 97
6.2 Analysis of multifractal strength $\Delta \alpha$, maximum value of the multifractal spectrum $\alpha_{max}$ and generalized fractal dimensions of brain MRI with INU 20% with various slice thickness. . . . . . . . . . . 101
6.3 Analysis of multifractal strength $\Delta \alpha$, maximum value of the multifractal spectrum $\alpha_{max}$ and generalized fractal dimensions of brain MRI with INU 40% with various slice thickness. . . . . . . . . . . 102
6.4 Comparison of proposed method with ground truth MSP through angular deviation $\theta$ and average deviation of distance $d$. . . . . . . . . . . 102
6.5 Comparison of Yaw angle error $\phi'_y$ and Roll angle error $\phi'_r$ of MSP between proposed method and state-of-the-art methods. . . . . . . . . . . 107
