LIST OF TABLES

INTRODUCTION

Table 1 Main approaches towards reduction of antibiotic (aminoglycoside) nephrotoxicity 21
Table 2 Composition of fish oil and olive oil 32

RESULTS AND DISCUSSION

Table 1 Effect of tobramycin, fish oil and olive oil on body weight 54
Table 2 Effect of tobramycin, fish oil and olive oil on weight of kidney and liver 55
Table 3 Effect of tobramycin, fish oil and olive oil on levels of serum urea and creatinine 57
Table 4 Effect of tobramycin, fish oil and olive oil on levels of serum cholesterol and inorganic phosphate 58
Table 5 Effect of tobramycin, fish oil and olive oil on levels of SGOT and SGPT 59
Table 6 Effect of tobramycin, fish oil and olive oil on levels of CAT, SOD and GST in kidney homogenates 61
Table 7 Effect of tobramycin, fish oil and olive oil on levels of CAT and SOD in liver homogenates 62
Table 8 Effect of tobramycin, fish oil and olive oil on levels of GST and MDA in liver homogenates 63
Table 9 Effect of gentamicin, fish oil and olive oil on body weight 72
