ACKNOWLEDGEMENT

Foremost, I would like to express my sincere gratitude to Prof. Jharna Chakravorty, my supervisor and Dean (Faculty of Life Science) for her continuous and undying support to my Ph.D. research, from my M.Sc. days for her faith and belief in me, constant motivation, patience and enthusiasm. Selfless contribution of her time and ideas, immense knowledge on the subject, made my research productive and thought-provoking. I am so grateful with the deepest of heart for her constant guidance which mentored my distributive journey into one goal of research and writing of this thesis. I deeply concede for her out of box thinking, common good, helpfulness, clear intention, sweet and gentle nature but if needed, the ability to push at times to bring out the best. Also worth mentioning is the clarity of her devotion to bring Rajiv Gandhi University and Arunachal Pradesh at par with national level.

I am thankful to Prof. D.N. Das (Head, Department of Zoology), Prof. H.N. Sarma (Department of Zoology), Dr. Daniel Mize, Dr. Manuj Kumar Bharali, Dr. Hiren Gogoi and Mr. M. S. Singh for being the members of Departmental Research Council, their technical suggestions and moral support.

Special thanks to Dr. Pankaj Kumar for his support and midas touch without which this journey would have been almost impossible.

I have been very privileged to know Prof. V. B. Meyer-Rochow of Jacobs University, Germany and Oulu University, Finland; Prof. Kenichi Nonaka of Rikkyo University, Japan; Professor B.D. Banerjee, UCMS, Delhi and his student Dr Tusha Sharma for extending moral support and encouragement.

I am very grateful to reviewers of my research articles for their insightful comments which broadened my research perspective. My special sense of gratitude is due to all those scientists whose books, reports, published articles and narrative contributed to my understanding the science of nutrition enabling me to deal with the theme of this thesis.

I am thankful to the knowledgeable village elders of Arunachal Pradesh for their help, cooperation and providing information without hesitation during my field surveys. Gratitude also extends to my brothers; Sarbang boria and Solomon Boria and maternal cousins (Nyining Takong, and seven brothers) of Jamoh clan who have helped me physically with the species collection from varied sites of Adi Districts. Pai Kobuk of Pasighat and my beloved late mother-in-law Smti Titeng Borang who have accompanied me to sample collection sites is worth mentioning.

For the identification of insects I extend my deep gratitude to the Central Entomological Laboratory, Zoological Survey of India (ZSI), Kolkata, India, without whose help this work would have been incomplete. I am also thankful to ZSI, Itanagar for allowing me to use their library.

In regards to chemical analyses, I thank SGS Pvt. Ltd., Kolkata and QPS Bio Serve Pvt. Ltd., NIN Hyderabad, carrying out analytical works. MKU Madurai for providing facilities (instrumental set up) to carry out experimental work. I would like to acknowledge the group members of the analytical team.
I gratefully acknowledge the funding source of RGU fellowship and the Rajiv Gandhi National Fellowship for SC/ST candidates (2007-2012) for initial year of full time research work that made my Ph.D. work achievable.

The members of Biochemical Nutrition laboratory have contributed enormously to my personal and professional time at RGU. The group has been a source of camaraderie as well as good counsel. I am indebted to all of them; Dr. Sampat Ghosh, Karsing Megu, Mallika Gogoi, Mohsin Raza, Salomi Jugli, Sonam D. Tukshipa, Pura Yashung, Jaya Narah and Johney Taloh for their instant help at several times. I would like to acknowledge past member of the laboratory, Dr. O. Tarunkumar Singh and Mr. Prem Chand Sharma. I am also thankful to Moses Mesar and Anjana Majumdar who have been keeping the Biochemical Nutrition laboratory spick and span.

I convey my special thanks to every member of the Department of Zoology; laboratory staffs Mr. Pitam Jomoh, Mr. Munna Rai, Mr. Techi Kamtung, Mr. Amit Bhattacharya, Mr. Bedanta Saikia, official staffs and my fellow colleagues and researchers.

My time at RGU was made enjoyable in large parts due to many friends and silent well wishers.

I would also like to thank my friends Nemkoo Kimsing, Techi Hanyir, and Marina Siram for their love, support and encouragement whenever I was in need. My thanks are also due to all those names which cannot be mentioned here but have helped me to scale the arduous journey to accomplishment.

Finally, my deepest thanks goes to my father, Aane, Antik and Lentik for theirs prayers and moral support; mother, Smti Angem Tali for rendering physical as well as moral support and my younger brother, Munna who looked after my children during my absence at home. My two children, Master Mibom Borang and Master Gemin Borang for cooperating with me such that I could devote the sparse time judiciously for the thesis work. My sister Munni for giving me a patient ear. I am also grateful to immediate and extended family members for their infinite support.
