Acknowledgements

I would like to acknowledge several people for their support in various ways during the research work. The present thesis work has been performed under the supervision of Dr. Ajay Kumar Ghosh in the department of Physics, Jadavpur University. He helped me at every stage of research work starting from the understanding of fundamental theories, experimental techniques, analysis and interpretations of data.

I would like to acknowledge Dr. E. Hollmann, Germany and Prof. M. Andersson, KTH, Sweden for several help. I would also like to thank all my lab-mates and all of my office colleagues for their kind co-operation. I must mention the continuous support that I have received from Mr. A. Roy in the laboratory and conference participation. I am also thankful to everyone in Jadavpur University, who has extended their full support in performing various measurements. I take this opportunity to thank all my family members and loved ones whose support and encouragement has helped me immensely throughout the course of life. I will remain indebted to my parents for their countless sacrifices. The financial support under major research projects by University Grants Commission (UGC) and Council for Scientific and Industrial Research (CSIR) is acknowledged to carry on the present research activities in the department of Physics, Jadavpur University.
