List of Figures

Figure 1.1: Reflectance spectra of different grain sizes of hematite ........................................6

Figure 1.2: Flow chart of Methodology ..................................................................................20

Figure 1.3: Location map of the study area ..............................................................................22

Figure 2.1: Flow Chart of the procedure followed ..................................................................37

Figure 2.2: Band ratio of Landsat TM ...................................................................................40

Figure 2.3: Principal Component of the Landsat TM for bands 1,2,3,4,5,7 .........................45

Figure 2.4: Principal Component for the bands 1,2,3,4,5,7 RGB(1,5,7). ............................46

Figure 2.5: Principal Component Analysis for the Landsat TM 1,3,4,5RGB(1,3,5) ............48

Figure 2.6: Principal Component Analysis for the Landsat TM 1,4,5,7 RGB(1,4,5) ..........50

Figure 2.7: Principal Component Analysis for the Landsat TM band combination 3,4,5,7 RGB (3,4,7) ..............................................................................................................52

Figure 2.8: Principal Component of the Landsat TM for bands 3/2,5/4,5/7 ..........................54

Figure 2.9: Principal Component of the Landsat TM for bands 3/2,5/4,5/7 ..........................55

Figure 2.10: Principal Component of the Landsat TM for bands 5/7,5/1,3/4*5/4 ...................57

Figure 2.11: Principal Component of the Landsat TM for bands 5/7,5/1,3/4*5/4 ...................58

Figure 2.12: Principal Component of the Landsat TM for bands (1+4/3, (4+5)/5, (5+7)/7) ...60

Figure 2.13: Principal Component of the Landsat TM for bands(1+4/3, (4+5)/5, (5+7)/7) ....61

Figure 2.14: Principal Component of the Landsat TM for bands ((3+5)/4(5+7)/7, (7+7)/7)) ....63

Figure 2.15: Principal Component of the Landsat TM for bands ((3+5)/4(5+7)/7, (7+7)/7)) ....64

Figure 3.1: Landsat Thematic Mapper ....................................................................................76

Figure 3.2: ASTERGDEM of the study area .........................................................................78

Figure 3.3: Shaded Relief of ASTERGDEM .........................................................................79

Figure 3.4: Gaussian mask (Kuntz, 2006) ............................................................................81
