ACKNOWLEDGEMENT

I would like to express profound indebtedness and sincere gratitude towards my respected Supervisor Prof. Pramod Tandon, Department of Botany, North-Eastern Hill University, Shillong. It has been a great honour to work under such a scientist of great repute. His unwavering support, collegiality, guidance and constant encouragement throughout my research period helped me in successful completion of my research work without any setbacks. His tremendous knowledge and scientific approach towards challenges and motivation to stay focussed greatly entrusted in me the ethics of carrying out a meaningful scientific research.

I am exceptionally grateful to my respected Joint Supervisor, Prof. Suman Kumaria, Department of Botany, North-Eastern Hill University, Shillong. She has been and continuous to be a tremendous force behind me since the day I joined the Department. Her continuous guidance, support, motivation, untiring helpfulness and valuable suggestions throughout the course of Ph.D. programme pushed me to try to excel in whatever I do. I will be ever thankful to her for nurturing my confidence in every possible way. She has taken care of me not just as a supervisor but more like her son. I will forever remain indebted to her for her unconditional love each and every day during my staying in Shillong. No words are enough to thank you Madam for your time, words of encouragement, dedication, presence and understanding.

I would also like to extend my heartfelt gratitude to Dr. Hiranjit Chowdhury, Department of Basic and Social Science and Dr. Meera Chettri Das, Department of Botany, North-Eastern Hill University, Shillong for their continuous support, motivation and valuable inputs throughout my research period.

I would like to thank Prof. Uma Shankar, present Head and Prof. M. S. Dkhar, Prof. N. Venugopal and Prof. S. K. Barik, former Heads of the Department of Botany, North-Eastern Hill University, Shillong for all the facilities and necessary help provided during my research period. I am also grateful to all the teaching, non-teaching stuff and research scholars of the department for extending their kind help.

I also acknowledge the Junior and Senior research fellowship of Department of Biotechnology (DBT) research project and Non-NET fellowship of the North-Eastern Hill University, given to me during my research period.
