ACKNOWLEDGEMENT

Written words possess an unfortunate tendency to degenerate genuine gratitude into immobile formality. But, this is the only way to articulate my feelings to all those people who have contributed in success of this thesis and crafted an unforgettable experience.

First and foremost, I would like to thank the Almighty God for showering His blessings during this entire research period. My love and affection goes to my entire family, especially my maternal uncles and aunties, my father (L) Binit Bhushan Dam and my mother Smt. Archana Dam, for their constant support throughout my life.

I feel privileged to have Dr. Amarta Kumar Pal of Department of Chemistry, Centre for Advanced Studies, North-Eastern Hill University, Shillong as my supervisor, who introduced me to this exciting field of research. Without him my venture into this research would have been incomplete. His excellent advice and guidance helped me a lot in completing this research work. I would also like to thank him for critical reading of this thesis and for lending me his helping hands in my academics and life in general.

I also thank all faculties, Department of Chemistry, Centre for Advanced Studies, North-Eastern Hill University, Shillong for their teachings and encouragements. I am also thankful to all the Non-teaching staff of Department of Chemistry, who helped me a lot during this period of research.

My acknowledgement goes to SAIF-NEHU especially to Mr. Joston. P. Nongkynrih whose dedication towards his work inspired me a lot, IASST-Guwahati, IIT- Bombay, IIT-Guwahati and CDRI-Lucknow for providing analytical assistance in my research work.
