ACKNOWLEDGEMENT

It is an honour to express my deepest and humble reverence and sincere gratitude to my Ph.D. supervisor Dr. D. K. Upreti, Senior Scientist, Lichenology Deptt., National Botanical Research Institute, Lucknow for his inspiring and talented guidance, keen interest, invaluable suggestions, pain taking efforts and constructive criticism throughout the course of the present investigation and preparation of this thesis.

I wish to thank Dr. C. S. Nautiyal, Director, National Botanical Research Institute, Lucknow for his valuable and kind support.

I am also highly thankful to DR. P.V. Sane, Ex-Director, NBRI, Lucknow to facilitate, motivate and gave me an opportunity to work in this institution for completion of my Ph.D. experimental work.

It is my proud privilege to express my deep sense of gratitude and heartfelt thanks to my honorable and esteemed Dr. S.P. Singh, Ex-Head of Genetics and Plant Breeding, NBRI, Lucknow for providing facility and sincere guidance to complete the experiments.

I express my deepest and humble reverence and sincere gratitude to Dr. Sudhir Shukla, Senior scientist, Deptt. of Genetics and Plant Breeding, National Botanical Research Institute, Lucknow for encouragement, time to time help in conducting the research work and also for devoting his valuable time in guidance.

Indeed words fail to express my deep reverence and special regards to my beloved parents for their everlasting inspiration, love and blessings.

I don’t have adequate sentences and language which can depict the affection and encouragement showered upon me by my beloved husband Mr. Chandra Mohan Naylor and parents in law during preparation of this thesis.
Finally as a mother the natural flow of motherly love keeps no bonding in expressing my eternal love to my young children’s having sparkling colours of rainbow in the sky of my sediments.

Last but not the least heartiest thanks to my friends for their support encouragement and cooperation, which turned the dream of present research work in the reality.
