ACKNOWLEDGEMENT

The difficult and at times disheartening task of completing the present study would have been impossible without the advice, constructive criticism and matured discussion of my guide Dr. G. Y. Shitole, Research Guide, S.N.D.T University, Mumbai. Without his guidance, patience and tolerance this research project would have just remained my dream.

In the pursuit and presentation of the present research work, academic help was taken directly and indirectly from several sources, institutions and individuals. I extend my deep-felt gratitude to Mr. J. Kishan, DGM, Precious Metals Division, MMTC, Mumbai, who was instrumental in providing me with a lot of literature, unpublished reports and publications on MMTC, as and when I needed them for my study. I am highly obliged to Mr. Manohar Balwani, Company Secretary, MMTC, New Delhi for his timely help and support.

I would like to thank all the officials of MMTC, to name a few are Mr. Sanjay Anand, Mr. Mohit Gupta and Mrs. Pallavi Kumar, for their co-operation and providing me with valuable insights into the working of MMTC. In the course of my study, I visited several libraries, so I am thankful to the librarian of K.E.S College of Arts and Commerce, IGDIR,
RBI, M. L. Dahanukar College and S.N.D.T University, Santacruz, Mumbai.

I am extremely grateful and indebted to all my friends who gave me moral support badly required during the course of this study. It was their continuous support and greatness to help me to excel beyond my capacity that has shown this research the light of the day. Mr. Homiyar Siganporia deserves a special mention for the timely help in giving the print outs without which I would have been severely handicapped in giving this study its present shape.

In fact, so many people have been instrumental in the successful completion of this study that it becomes practically impossible for me to thank them all individually, but this does not, in any way, reduce my appreciation for their contributions.

Finally, I wish to dedicate this thesis to my mother, Mrs. Vasanti Hegde, to whom I owe so much and who continues to be the greatest source of inspiration and courage to me at all times. Without her continuous support, help and tolerance my work would never have been completed.

Mumbai. MALLIKA HEGDE
